Forest Service Manual 7700 Travel Management; Chapter 7700, Zero Code; Chapter 7710 Travel Planning

**AGENCY:** Forest Service, Agriculture (USDA).

**ACTION:** Notice of availability for public comment.

**SUMMARY:** The United States Department of Agriculture (USDA), Forest Service, is proposing to revise its directives to update and clarify guidance on management of electric bicycle (e-bike) use on National Forest System (NFS) lands. E-bikes have become increasingly popular nationwide among outdoor recreationists on NFS and other federal lands. E-bikes expand recreational opportunities for many people, particularly the elderly and disabled, enabling them to enjoy the outdoors and associated health benefits. Currently e-bike use is not allowed on NFS roads, on NFS trails, and in areas on NFS lands that are not designated for motor vehicle use. To promote designation of NFS roads, NFS trails, and areas on NFS lands for e-bike use, the proposed revisions include new definitions for an e-bike and a Class 1, Class 2, and Class 3 e-bike, as well as guidance and criteria for designating e-bike use on NFS roads, on NFS trails, and in areas on NFS lands.

**DATES:** Comments must be received in writing by October 26, 2020.

**ADDRESSES:** Comments may be submitted electronically to https://cara.ecosystem-management.org/Public/ReadingRoom?project=ORMS-2619. **SUPPLEMENTARY INFORMATION:** Over 27 States have adopted a standard definition for an e-bike and a three-tiered classification system for e-bikes. Additionally, the United States Department of the Interior (DOI) recently issued proposed e-bike rules for the Bureau of Land Management, U.S. Fish and Wildlife Service, Bureau of Reclamation, and the National Park Service pursuant to a Secretarial Order that promotes e-bike use on DOI-managed federal lands.

The Forest Service’s proposed directive revisions align with the 27 States and DOI’s proposed e-bike rules in adopting a standard definition for an e-bike and a three-tiered classification for e-bikes and align with DOI’s proposed e-bike rules in requiring site-specific decision-making and environmental analysis at the local level to allow e-bike use. In particular, the proposed revisions would add a paragraph to Forest Service Manual (FSM) 7702 to establish promotion of e-
