Comments:

I am very concerned about the matters of the DEIS. As an indigenous person I find it painful and sad that anyone, even you, would harm our land. Mt. Taylor is a sacred site. The Earth herself is sacred yet greed has harmed her in so many ways. Let us find a different way. Let us all give up a little something so the earth can live. I don't see folks coming to tear down churches so why is it ok for folk to harm Mt. Taylor. You have the ability to do something different, please do so. Take a stand and we will stand with you.
