Pisgah-Nantahala logging

I will save my angry words. I am in utter SHOCK.

Please do not do this. WNC needs the tourist revenue more than the US needs a little timber.

You will devastate what looks to be the entire western third of the state.

Please don't log this area!

In a short while, if you do cut these trees, there will be no tourism, no more trees, erosion, etc. etc. And then you won't be able to make any money from anything.

This is shortsighted and you are not considering the THOUSANDS of people who make their living off of tourism, let alone people who lives and visit these areas.

The USFS is here to protect the forests not use them as a bank account.

I get that the government won't give you any money but you cannot be that short-sighted!

Isabel

Former resident of Brevard and West Asheville, NC
