Pisgah and Nantahala Plan

I just read, with horror, your new plan for the above forests. I have a home on Sugar Mountain, NC, and we regularly visit Pisgah forest. I do not want to see it turned into a tree farm! And that, according to what I have read, is what you are proposing to do with this revised plan?when you write..?the purposeful growing... and harvesting trees?. As I understand it, this ?purposeful? plan would be in effect for about 70% of the forests. A tree farm is not what the government had in mind when these two areas were designated national forests. Your job is to protect the forests, not turn them into a tree farm production area. I do not want to hike thru a Pisgah tree farm!
