Please reconsider your plan for Pisgah

Dear Kristin Bail, USFS North Carolina Forest Supervisor,

Hi Kristin,

I spend my work days lobbying governments of Latin American countries to stop them from deforesting the Amazon.

I never thought I'd spend my nights lobbying the government of my home state from destroying North Carolina's beautiful forests.

Industrial scale logging in our forests would kill our carbon-sequestering trees, destroy the forest's biodiversity and harm the North Carolina's tourism industry.

Please do not choose short-term "development" projects over the long-term health of our planet and citizens.

Sincerely,

Katie Fogleman
