Dont burn them! LEAVE IT NATURAL!

Dear US Forest Service,

It is we,ours,the peoples treasure. AND we do not want them burned for profit !!!The Pisgah and Nantahala National Forests are one of North Carolina's many NATURAL treasures. It's important to me that they are managed well and kept NATURAL for future generations. Since their management plans are up for review I want to make sure that the overarching goal of the new plan is ecological restoration. Restoring these forests and protecting them from commercial logging and the burning by the US Forest Service is critical.

Thank you.

Sincerely,

Christian Jenkins
