Logging in western NC

NO NO NO NO NO, a thousand times NO. Logging trucks and the equipment associated with logging would ruin our beautiful forests in western NC, and I oppose any regulation(s) that might allow logging in the national forests. National forests are designed to keep industries like this out so that our citizens can enjoy the beauty of our land. We should NEVER allow loggers to ruin our forests.

I beg you to not allow these regulations to be passed.

Thank you,

Debbie Walker
