Comments:

As a former resident of the area, I've enjoyed the trails in the area both by hiking and by use of an ATV. The older I get, the less I can hike. Therefore, if there is a conflict between hikers and ATV riders, I would suggest the hikers can find many trails not open to ATV's. We need to have more trails open for ATV's, not less. For this reason, I am opposed to closing Winter and Ryman creek trails to ATV's.
