Comments:

My comment is regarding the administration only designation for 424A between the Cross Mountain trailhead and the Lizard Head Peak trailhead (505).

This is a key connector for the very awesome Cross Mountain/Lizardhead loop hike. If closed, hikers like me who love this loop would have to walk on the highway.

Also 424A is very nice for beginner snowshoeing and cross-country skiing because of its easy access, fun deep snow, and level terrain.

Please consider leaving 424A open for non-motorized uses.

Thank you,

Jim Mimiaga
