save moutain biking in Pisgah

As an avid mountain biker,

I do not support USFS timber production in areas of the forest with heavy recreational use, including the Pisgah District?particularly in the Davidson River and South Mills River areas. Timber production in these areas could negatively impact the backcountry mountain biking experience.

I do not support the proposed Wilderness designation in the Pisgah and Grandfather Districts for Daniel Ridge, Laurel Mountain, Cedar Rock Mountain, South Mills River, Woods Mountain and Jarrett areas. These areas have a high concentration of trails and are heavily used for recreation, including mountain biking.

Thank you A. Krussell
