PLEASE DON'T CUT BIG IVY

To whom it may concern:

I am writing to express my opposition to the proposal to open up the area of Big Ivy in Barnardsville, NC to logging.

Big Ivy is beautiful and sacred land. It's beauty is apparent and it is sacred because of all the biodiversity it contains. Its pristine waters, wildlife, and amazing collection of medicinal plants would be devastated by the occurrence of logging. There are many farms that provide many people in the area with food that would be also be severely affected.

This is an area of serene peace, a place I have fallen in love, a place of refuge for humans, animals, and plants alike. Logging this area would cause the creek to change and would disturb all the relies on it. We, as humans, are responsible for protecting gems like Big Ivy from destruction. Please hear this plea and reconsider the damages that logging this amazing land would cause.

Thank you for all that you do and for hearing the people!

We are all in this thing together,
Bridget Doran
