Comments on Rico/Delores Travel Management Plan

Sir,

Please consider my comments on the referenced Plan: (1) The Winter Trail must stay open to motorized access. A very few people that oppose it should not take away the access for the many who have an equal right to use the trail; (2) The entire District should not be off limits for seasonal access because of winter range for wildlife. The animals only use a small portion of the area, and there is room for both humans and animals ? close only those portions that are used seasonally by the animals; (3) Ryman Creek Trail should be a joint maintenance effort by the COHVCO and the Rangers?the off road group will step up and help, the Rangers just need to direct them?give it a try; (4) Please remember that the COHVCO are tax paying Americans, whom in many cases are Veterans who fought for this country, and they don?t expect a free ride. What they do request is an opportunity to use a very small portion of our public lands to enjoy outdoor time with their families and friends. They pay their own way, and will follow reasonable guidelines that are implemented. Thanks very much.

Larry Harkins
