Comments:

Earlier this year during second season opening day, 7:30ish opening morning I was surprised by a dirt biker well off the trail in upper Burnet creak. Not only does this interrupt my peace and tranquility it wastes my time and effort trying to harvest an Elk. It?s either time to impose closure periods or let me know so I can find somewhere else to hunt. I cannot justify the effort required to hike into these remote areas only to be interrupted by dirt bikers.
