Comments:

I would like to voice my opinion about trail closures. Public land is just as it is stated "Public." Many people enjoy the great outdoors, hiking, biking, fishing, camping, hunting, and some choose to enjoy it while riding on a motorized vehicle. Those of us who are single track enthusiasts are finding it harder and harder to enjoy the challenge of good single track riding. With our organization we have helped maintain, improve, and limit abuse to our trails. I personally have encountered several hikers and horse back riders and have had no issues with sharing the trails. I have also had to stop on a trail because of motorized restrictions while hikers and horse back riders continued on. My point is keep trails that are currently open to remain open. I understand that some trails are in jeopardy, I would like to ask that what trails due get closed that replacement trails be opened so that we all may enjoy the Great outdoors in colorful Colorado.
