KEEP RICO FREE

Hi my name is Jason Browning and I married into a family that was born and raised riding through the trails making memories. I have seen how much this means to their family and would hate to take that opportunity away from the next generations. Another issue I have with this closing of the trails is that supposedly there was a survey given to the public where votes were taken into consideration of the closings and we, the people who pay city taxes and support the community, were never even told about the survey! Of course the votings to close the trails outweighed the ones to keep it open because we didn't even know about the survey...strange how that happened??? Hmmm...

These trails have been there for years and years. Why take them away now?! The amount of funding that has already gone into this 'project' is already absurd I am sure, the funding that will go into enforcing the closing of the trails will also be ridiculous. I would much rather not see my tax money go towards something I truly do not believe in. I urge those who wish to close the trails to rethink their actions. I truly can prepare you for a dramatic decline in my family's support in the local businesses. I honestly think you would be making a very poor decision by closing the trails.
