Comments:

I cannot believe that the Forest Service would consider allowing a mining road to be created in order to service COAL mines. Where are the leaders in the Forest Service who would think that creating an "exemption" to The Roadless Rule for ANY REASON is a good idea?? And to make things even worse> Road(s) for FOSSIL FUEL ACCESS is incomprehensible. Forest Service, WE are in the 21st century and need to care for this planet and all living things upon it using sustainable and alternative choices. NO to allowing changes to the Colorado Roadless Rule.
