Comments:

I am appalled by your plan to open the Sunset Roadless Area to coal mining. This pristine land would be devastated by such activity. It is far more valuable as wildlife habitat and recreation area than its coal could ever be. Coal is a dying industry, and rightly so. It is filthy and damaging to the environment. Your proposed give-away of publicly-owned roadless forest to Arch Coal is beyond stupid and in violation of Obama Administration's stated goals for public policy on the environment. Don't do it!
