Re: Rulemaking for Colorado Roadless Coal Exception #46470

Dear Staff:

I will make this quick. What don't you know about global warming? Until the grass roots in American Society, this includes you, takes up this issue and stands up for the health and welfare of all living creatures, humans and your family included, our planet Earth is doomed. Actions such as what you are soliciting comments on, mining more coal and supporting this industry, is no longer just a local issue it is a world-wide issue! Get some balls and do the right thing. Stand up against your bosses. Make it tough on them. Stand up for your neighbors. Make life a little more pleasant for them. Stand up for the only real home we have, Earth. Help give all living things a little longer to come up with some real solutions to Human Caused Global Climate Change! To worship your pay check more than your responsibility to act responsibly on behalf of all of us is shameful.
