Phone: 3034472206

Comments:

This is in support of Altrnative A (No Change),in the supplemental EIS re: the Colorado Roadless Rule.

You are experts and you probably understand even better than I do why allowing an exception would be indefensible on all fronts: economic--it would end up costing taxpayers untold billions of dollars; environmental--need I say more? public health--air and water pollution.

Please do not cave into mining interests. Mining companies are not charities, and neither are you! Your job is to stand up for the rest of us, the public.We depend on you.
