Comments:

To whom it may concern, I am NOT in favor of changing the roadless rule. There are too many roads in our country already. We need to protect these special areas into the future for habitat for animals, for people to find a place of quiet and solitude and to protect the natural resources as they exist. Coal is not the solution for our ever growing need for power. We need to find other more sustainable sources. Please do not allow more roads!!! Thanks, Cindy Farny
