Comments:

Why are we even considering such dirty energy when the country is awash in oil and natural gas? Tearing up our precious forests for such a frivolous reason is insanity.

Forestry Service need to get a clue that our forests purpose has changed from a resource exploitation to a recreational base. We need the undamaged forests more than the coal. Coal....how 18th century can you get.

Come on guys, let's get real and kick the exploiters out!

Sincerely,

Richard Bledsoe
