Rulemaking for Colorado Roadless Areas - Supplemental #46470

Please keep roadless areas roadless. Maintaining the large areas of roadless forest is critical for wildlife survival, and as an asset to people who wish to have a wilderness experience. Please also consider allowing bikes on all (or most) trails. The original intent of wilderness was not to preclude human powered exploration of our forests, but rather to encourage it. This rule has been warped over the years and needs to be amended.

Thank you,

August Hasz
