Jessica Conn VA 22003-1909

"The myopic pursuit of dirty energy at the expense of both our air quality and air purifying forests is a catastrophic idea."

Patrick Conn WA 98031-9669

"What the F...(forest)? YOU ARE the "UNITED STATES FOREST SERVICE," NOT the "COAL INDUSTRY SHILL

SERVICE." NOWHERE in Arch Coal's rape, pillage and plundering of OUR PUBLIC FOREST plan does it stipulate how it BENEFITS THE FOREST or THE PUBLIC! It doesn't contain one provision to PROTECT OUR PUBLIC LANDS AND FORESTS. But YOURS DOES, AND IT IS EVEN IN YOUR AGENCY TITLE. DON'T CONTINUE TO ASSIST THESE ECOLOGICAL TERRORISTS. STOP THEM NOW."

Ronald D Conn li OH 43130-3465

"Preserve the sanctity please!"

Lauren Connell OH 45226-1404

"Watch Racing Extinction if you need to see the impact we're having on our planet. We're ruining our sources of oxygen, and our population is only increasing. Stop contributing to our destruction."

Mark Connelly WV 25701-4948

"Destroying our forests for dirty coal is tragic!"

Kathleen Connolly IA 50312-1435

"Coal should be obsolete if we are to save the environment! Destruction of forest, a natural filter for the air we breathe, is more than just counterproductive--it's suicide!"

Marianne Connolly MA 02054-1770

"Save our forests and all who live in them."

Rocio Connolly PA 18690

"Please do NOT bulldoze pristine forests and habitats in the name of pure greed. Where are your morals and ethical values? Or do you have none? Take the correct action and leave nature alone. Thank you."

Bill Connor Connor CA 95014-3479

"Bulldoze it all and then wonder why it's getting hotter and co2 is not sequestered and soil is washed away."

Elizabeth Connor CA 92675-1121

"I've always believed that the Forest Service was created to protect our forests. It's right there in your name! Surely, only those who respect and love nature would pursue such a calling. It is inconceivable to me that you would be considering putting the interests of a coal company ahead of the ecology that you have been sworn to protect. You have a sacred duty to fight against any efforts to degrade nature and it would be best for you to remember that."

David Connor VT 05602-8529

"Colorado is a beloved destination for us; we have family who have emigrated there whom we visit regularly. The Arch Coal proposal will certainly be opposed by our young Coloradans and undercut the

reasons they--who love the natural beauty of CO-- and who are environmental activists--will be ready to abandon their chosen state because of abhorrence of dirty coal mined and also destructive of glorious forests.

David Connor,VT"

Sheri Connor WA 98037-2847

"Stop the destruction of our land. The rich are more than rich enough, they don't need to destroy even more of

America."

R Connors FL 33859

"Allowing this destruction of public resources would be further evidence of short-sighted operations of our wild lands."

Richard Conrad CA 95765-5075

"Coal is not an appropriate 21st century energy solution. It should be left in the ground. A forest, on the other hand, cleanses the air of CO2 and produces oxygen. Fewer trees and greater use of coal will only accelerate climate change. Is that the legacy we want to leave?"

Barbara Conrad MN 55042-9417

"Why are we destroying our forests?"

Bob Conrad

TX 75115-4933

"Keep our forests pristine, no coal mines"

Beverly Ann Conroy IL 60304-1414

"Roadless forests are healthy forests. Healthy forests make a healthy planet. A healthy planet makes for healthy people!"

Peggy Conroy NY 12992-2703

"roads are worse than mining for the land and its animals"

Cynthia Consentino MA 01060-2128

"It should be our highest priority to preserve forests and lower carbon emissions. Please block Arch Coal from exploiting these lands."

Patricia Constantino NY 11231

"Please continue to preserve Mother Earth otherwise we are committing suicide as Pope Francis has said. We are responsible to future generations to be able to live on a healthy planet, if they can survive at all."

Patricia Constantino NY 11231-4829

"You have the power to stop the destruction of this beautiful forest. We must preserve our environment for future generations. Don't allow Arch Coal to bulldoze this forest and add more pollution to Mother Earth."

Delbert Contival HI 96741

"Stop pimping for corporations! Coal is DEATH to the environment!"

Luis Contreras AR 72631-9143

"More coal = environmental suicide Arch Coal does not care about our kids future ... How can USFS, a federal agency, ignore the Paris agreement UNFCCC signed and binding to lower carbon dioxide emission. The Methane from underground mining and the carbon dioxide from burning coal at power plants is the cause of extreme floods, and the West Coast wildfires USFS can't stop thank you!"

Catalina Contreras CA 90731-2131

"Please stop this now!!!"

Daniel Conway NJ 08827-4019

"It's our responsibility to protect the beauty of this country and well being of the planet."

John Conway OH 44107-1237

"We as a nation just signed an agreement to reduce fossil fuel gases. This material needs to stay in the ground. We need to show our fidelity to the agreement and block this coal from leaving the ground."

Patti Cook

"Coal mining cannot be an option in Colorado, a state known for its beauty and outdoor activities. Once the damage has been done, and the company goes away in some form or another, all that will be left is an area razed for profit. This does not even include water ramifications, which is a precious natural resource in this State which cannot be ignored."

Sharon Cook

"My family has enjoyed our great wilderness for 45 years. Please don't allow coal, which should stay in the ground, to be mined in wild areas that we need for recreation and climate cntrl"

Doug Cook

CA 94515-1419

"Don't destroy Forest Service land by allowing coal mining on "our" land. It will lead to the total destruction of that land."

Anna Cook

CA 94947-4420

"I am pretty sure this could be called rape. Stop, think and remember what love of our earth means."

Esther Cook

FL 32505-3303

"We have not fallen asleep Do Not destroy this land for our future generations!!!! I am in Fla now but I so remember & love what beauty Colorado Forests add to our inheritance to our coming generations in land growth and Birds & other animals. KEEP IT SAFE for THEM!!!"

Martha Cook IL 61761-3702

"Please save the trees, which store carbon when left intact."

Darren Cook KS 66442

"Forests are the lungs of the earth! They must be put first."

Joseph Cook MD 21036-1033

"The use of coal as an energy source is the wrong approach to energy independence. Please do not allow Arch Coal access to our pristine forests by the construction of new roads. Thank you. Joe Cook"

David Cook

MN 55346-3833

"we should be planting more trees not destroying them. Climate change is the biggest issue facing this

world. You can not possibly approve this action with that in mind."

Leah Cook

NY 14850-9542

"Roadless" is supposed to mean, you know, NO ROADS. That land belongs to the American people, and as such, the American government is supposed to be holding it in trust for the American people. It does not have the right to allow a corporation to use it for ANY PURPOSE, especially for private business profits."

Lewis Cook

NY 11375-3455

"When we have so many options for carbon-free wind and solar power, how does it make sense to trade forests for yet more coal? Please rethink this."

Dana Cook

PA 19428-3206

"Please don't be destructive."

Kimberly Cook PA 17543-1019

"Uruguay can sustain their entire country on 94% renewable energies. We are Americans, we are innovators, we should be racing to be the first country to give up destructive, addictive fuel sources. You mean to tell me you can put a man on the moon but you can't install a solar panel?"

Nena Cook

WA 99156-9158

"Leave our wild forests alone and let Forest Mgmt take care of them, NO MINING as its destructive!"

Art Cook

WA 98206-1665

"This is morally wrong not to see the death in this. We must clean our planet. Not spread it around. Just pour some coal in a fish pond it will kill all the fish. Not good for fish or me. We've had enough acid rain thank you"

Paul Cooke

AR 72089-0083

"I hate these large companies that have to destroy the environment just to get raw materials. They do more damage than good. They just pollute everything in site. The small rivers and streams that lead to reservoirs for use by the public is contaminated. The soil is contaminated with their wastes that leaches into farm land from rain run off. I'm wondering if there is a secretive ploy to poison the public to shorten our life span and decrease the population? I have observed in the news how these large company executives could care less about human life as long as they can get away with little or no punishment and continue with their unsafe practices. Even when hazards are found and the executives are made aware, they still do nothing to make the coal tunnels safe. Colorado has some of the best scenery and cleanest air, why destroy and contaminate it?"

Florence (nina) Cooley CA 93109-1958

"We now know the egregious consequences to the environment and to life on Earth of the burning of coal and petroleum. There are benign alternatives. Let the coal and oil stay in the ground!"

Marian Cooley IN 47304-3042

"Arch Coal should not be allowed to destroy roadless forest in Colorado to mine more coal. This would cause great damage to our economy and environment. We can't let our wild lands be destroyed for this."

Anita Coolidge CA 92007-1043

"We need to go GREEN -- NOT greeD!!!"

Patricia Cooney MI 48322-3765

"When countries around the world have acknowledged climate change and have agreed to halt its progress, coal mining and the massive destruction of habitat in order to mine must be "off the table" permanently."

George Coons NM 87048-7309

"I'm watching you!"

Tracy Cooper

"Dear US Forest Service, Please stand up for the natural resources of Colorado and the people of the United States rather than profiting a single company who will benefit. The domino effect is not acceptable risk. Thank you, a concerned citizen."

Judith Cooper CA 95924-0134

"Save our beautiful, oxygen-producing forests!"

Kathleen Cooper CA 92530

"We live next to the Cleveland National Forest at 3000 feet. Residents close to and ever far from the forest stopped a project that would have ruined a canyon with hundreds of years old trees."

Shambie Cooper FL 32931-3834

"Keep thrnColorado Road Rule in place. It serves a purpose to protect all of us from the greed and destruction of the mining industry."

Ryan Cooper IN 47250-3026

"The planet seems increasingly finite and Coal is not important enough at this point to sacrifice the serenity and natural state of our forests"

Victoria Cooper MO 63119-3001

"Our Forests are our greatest preserve, they are not a dumping ground - stay out!!!!"

Margo Cooper NY 12989

"DO NOT LET ARCH COAL INTO ROAD LESS FOREST TO MINE FOR COAL. WE CANNOT KEEP DESTROYING OUR ENVIRONMENT FOR GREED."

Bill Cooper

NY 12989-2101

"Fossil fuels will be the death of us, and coal is the dirtiest."

Cassie Cooper OR 97538-9711

"Coal is dirty and a form of fuel left in the past. Roadless forest land is few and far between and provides a safe area for wildlife to thrive without the interference of man and our trail of trash and destruction we leave behind. I would ask that you please leave this area alone and do not allow the company to come in and destroy it. Coal is not the answer. We need to focus on clean energy, Renewable energy and hopefully in the near future free energy. Paving the way for more coal mining only sets us back even

further from moving forward."

Steven Cooper OR 97212-1078

"Don't let Arch Coal mine the coal in CO. We don't need the added carbon footprint, nor do we need the destruction of wildlands that mining does."

Melissa Cooper OR 97424-1424

"Step out of the 1800s and stop this insanity!"

Jon Cooper PA 17566

"I was under the apparently mistaken notion that your mission was to protect the forests- when did that change to sacrificing them to corporations?"

Pam Cooper TN 38128-3742

"Our atmosphere is already at dangerous levels without this coal company removing untold oxygen producing specimens so they can further the essential quality of the air we breathe!!!"

Patricia Copenhaver IA 50126-1427

"Close the arch Coal loophole."

David Copper VA 24401-3679

"Leave it in the ground and leave the forests alone"

Terri Coppersmith MD 21158-1825

"It's more than time for society to move beyond the use of fossil fuels and the Jurassic mindsets that promulgate it. Stop this ridiculous practice now! Grow up, America."

Pamela Corbacio NY 10992

"Stop the madness! There are better choices."

Michael Corbett NY 10024-2006

"Please don't destroy our wild lands for dirty coal. It is a fuel of the past, not the future."

Todd Corbett OR 97486-9614

"Please stop this loophole which would set a dangerous precedent for our wild lands. Help stop up to 65 miles of road from being bulldozed across 19,000 acres of roadless forest, degrading habitat for black bear and elk, goshawk, lynx and trout...all to benefit one corporation. Please don't allow Arch Coal to reap profits while adding huge amounts of climate pollution to our atmosphere, all at the expense of wild, roadless forest! We need to turn the tide before it is too late. Thank you."

Paul Corbin

IA 52101-9584

"I don't want coal to be used . It is too polluting for our earth."

Susan Corbisier WI 54601-6612

"Don't do it. Think of the future and our children. When these forests are gone we will not see them again.

Trees provide oxygen and do many things for the environment."

Anne Corcoran

CA 90066-7048

"Please respect the forests of Colorado & do not bulldoze them to access coal. Thank you Anne"

Janice Cordeiro NJ 08081-5671

"Enough! There are so many reasons to stop coal mining. My father died at age 42 from "black lung" he hemorrhaged to death in our kitchen in front of me, his 12 year old daughter. Thanks to coal 3 siblings and a wife struggled to keep afloat and an amazing father was forever lost. For coal profit! Now you would like to destroy a forest that we need. They clean the air and provide oxygen. You would take that away for a profit. ENOUGH!"

Rhio Coreli

NY 10027-5215

"Our government needs to push for the development of clean renewable energy sources and stop destroying our Earth Mother"

Joanne Corey NY 13850-1424

"In short, we need fossil fuels left in the ground to safely sequester the carbon emissions that are overheating our planet and we need the trees to photosynthesize as much carbon dioxide as they can. Please keep Arch Coal from damaging Colorado."

Bonnie Corey OH 43606

"Keep the coal in the ground!!"

Mia Corinha MA 01908

"Stop the loopholes and save our forests!"

Michelle Cork MI 48035-3996

"We need to stop destroying this planet! It may not matter this minute this hour or this day but in years to come it will! Stop Stupidness Now!!!"

Dawn Corley FL 33024-8065

"Enough is Enough, are we going to wait until we have nothing left of this planet."

David Cornell OR 97540-6641

"Coal is on the way out! This proposal is going exactly in the opposite direction. Hello, anybody awake there?"

Frank Cornella MO 65809-2214

"No such thing as clean coal. Save our forests!"

Clelia Corona CA 92683-3976 "NO!"

Marianne Corona CT 06455-1223

"This must stop, our roadless forests are so very important to not only climate pollution but also to global warming!"

Norma Corona TX 78250-4745

"Please do not reopen the loop hole."

Terri Corral

"Leave the forests alone!!!No more dirty coal mining!!!"

Edmund Correia CA 94022-4201

"The Forest Service must act on behalf of the interests of the many and withdraw its support from those seeking only short-term profit."

Aradia Correnti WA 98115-7133

"I know the mighty dollar rules all, but in a time when our world is struggling to stay livable, I'm hoping you'll reconsider allowing this to happen. If you can't consider what will happen within your own lifetime, please think about the generations to follow. Thank you."

Jim Corriere CA 92227-9508

"Thank you for reading my letter. End the destruction of forests!"

Anne Corrigan CA 92104-5747

"Forest service means protecting our beautiful forests, not bulldozing them for the coal industries' profit."

Anne Corrigan CA 90066-2031

"Please put environment before profit. Thank you!!"

Bethany Cortale NJ 07751-9750

"Reject the coal mining loophole to the Colorado Roadless Rule."

Loyd Cortez

TX 78227-4538

"Stop the bulldozing of our forest trees. Let's keep our air clean. Let's keep our big shade trees for our children to sit under."

Dorothy Cortright SC 29212-1531

"We must work to stop the use of fossil fuels which pollute our atmosphere and add to climate change as well as destroy our wild lands. Do the right thing by not reopening the coal mining loophole in the Colorado Roadless Rule."

Scott Corwin NM 87016-0220

"Also, US Forest Service, let's step back and look at where our precious Federal dollars are going. We do NOT need to invest in continuing, reviving a dying industry that harms our nation and the world as a whole. In the 17th Century, coal was what we had... current technology. Today, we have a safer and healthier future - pollution-free renewables. Look at China. You cannot walk thru Beijing without a mask on. That is not where this nation needs to go. Regardless of any financial royalties, we must say NO to further coal development. It is the Needs of our nation that must be served. Say NO to further expansion of Arch Coal in our lands, Please."

C Corwin NY 13111

"It seems apparent that alternative energy sustainable energy will not become mainstream until the dirty fuel companies are shut down. Too bad we feel forced to go in a negative direction in order to

ultimately go in a positive one. one."

John Cosgrave CA 95006-1407

"When there is no road in the wilderness, it means hike. You destroyers of nature should take a hike off a pier and forget to come up for air."

Rachel Cosgrove VT 05403-6510

"Please do the right thing by not allowing Arch Coal to destroy more forests. Thank you!"

Rosa Cossios CA 92706-3633

"I oppose coal mining in Colorado. Do not destroy our pristine land."

Bill Costa

NY 11963-1406

"PLEASE protect our natural resources and environments. Thank You."

Ann Costa

TX 77251-1600

"We only have one earth. Please take action to stop this needless destruction."

Fran Costabile NY 11733-0710

"Please no more coal mining. We need clean energy and all the trees we have to keep our planet in balance."

Mary Costello

"Arch Coal has gutted mountains in West Virginia and poisoned watersheds people depend for their drinking water. Don't let them do this in Colorado."

Nancy Costello FL 34134-7840

"Please help preserve our environment! Thanks for anything you are willing to do!"

John Costello NY 10990-3705

"Forests help reduce pollution in contrast to coal which increases it dangerously, as recent news from Beijing reveals."

Bruce Coston CA 94087-1749

"Stop the insanity ."

Kristen Coston KY 42629-7918

"Some of the public servants we've been electing are no longer representing the public. Instead, they've gotten

greedy and have continuously shown their allegiance to big businesses and certain groups of multi-millionaires and billionaires. It's time for someone to do what's right for our children and grandchildren, our planet, the wildlife on this planet and the future of the human race! Protect our environment, take a stand and do what's best for us! Not "them"!!"

Luis Cota

AZ 85648-6834

"Help stop the destruction of our planet, the future of your children, our children depend on it."

Theresa Cote CA 95713-9628

"we don't need more roads in our forests. We need our forests to be left alone as our national treasurers

and as one of the chief captors of green house gases."

Steven Cote CT 06016-9534

"Please stop this!"

Christine Cotler TN 37354-6003

"Please protect our forests where our beautiful birds & animals live,"

Justina Cotter AZ 85748-9201

"This land is the people's land and it is being sacrificed for the profit of a single company. Not only does Arch get to profit off of public land, the use of the coal goes on to harm people's health through air pollution and add to the warming of the planet. Please do the right thing and deny this permit."

Chris Kanit Cottrell WA 98136-2317

"How can allowing Arch Coal to mine this area be in the common good? I can't understand how this can even be considered. Keep it in the ground!"

Jessica Coulter

"Preserve our wildlife and forests."

Martha Coulter Laing ID 83815

"Coal has no place in a clean environment. Leave mature alone."

Nina Council OR 97520-1432

"No loopholes, no more destruction of the lands. No more bulldozing, our trees absorb CO2 to help stop climate change. Stop all the destruction"

Larry Coupal FL 34684-1406

"We are moving towards universal energy and low grade polluting energy is no longer needed and to allow Arch Coal to go ahead within pristine forest areas is a crime against Mother nature. Do not allow it."

Claire Coupez WA 98036-5668

"The survival of this planet, in turn, humans, depends on the preservation of forests. Also, on steering away from polluting sources of energy such as coal. Please spend the time and money on sources of natural energy."

Dr. William Courliss

"Numerous States have 'roadless rule' to protect the Peoples' Forest Lands. Why are you allowing Arch Coal to VIOLATE this RULE for the sake of carcinogenic excavation of coal?"

Francine Courmos NY 10471

"We need to stop destroying our planet. I have grandchildren and I want them to survive!"

Robert Courson MI 49684-8955

"close loophole"

Robbi Courtaway MO 63119-4720 "#N/A"

Joyce Cousino NM 88030-6416

"No more coal, leave it in the ground!"

Virginia Cousins OH 44278-1305 "No! No! No!"

Michelle Cove

"Enough already, we need to end this forest destruction. "Paving the way" is simply not the answer!"

Leslie Cover

CA 94611-1040

"Dont bulldoze the forest!"

Barbara Covey PA 19506-8242

"Please use your intelligence and political status to prevent more damage to this planet and its inhabitants!

Thank you for whatever you can do in this effort."

Gaya Covington UT 84123-2900

"Do NOT let your legacy be one of destroying pristine forests and lands for archaic fossil fuel energy sources such as coal, when that money could be better spent developing cleaner energy sources and leaving the forests and lands intact and the coal in the ground!!"

Diana Cowan CA 92084-7279

"I grew up in coal mining country and it ruins the landscape. Please close the loophole that allows ruining the forests."

Linda Cowart LA 70441-3518

"Please do not take the homes of the voiceless in the name of greed."

Anne Cowden CA 95404-3620

"Stop now degrading our earth for a fuel source that will soon be replaced by better and cleaner ways. Try to work with the environment and change your business now."

Rhonda Cowden TN 37921-4154

"By allowing this mining you increase climate change with deforestation, mudslides, affect the quality of the water with contamination, look at Mexico for a example of deforestation. This is how it begins, not to mention the effect on the wildlife. It does not take much bulldozed here and a little bulldozed there to add up to this massive climate issue we are suffering now. Is it worth it?"

Dave Cowen CA 92127-5914

"We need more forests, not more coal. This kind of senseless destruction of the environment to produce a destructive and incredibly dirty form of energy has got to stop!"

Justin Cowles HI 96708

"There are better options. Think about the eons it took to create fossil fuel, and what it means to dump it back into our life system so suddenly. Think about the damage done to allow that. Pursue a different path, one without a dead-end."

Natalie Cox

KS 66044-8915

"Countless CRIMINAL activity occurs around Coal Mining. One is ILLEGAL DRUG trafficking. In addition to stop coal mining, please contact pharmacists to outlaw pseudo ephedrine as this is what is used to make methamphetamine. Criminals that come with coal mining are ones who steal other people's dogs and eat them. Hideous human murders. Thanks!!"

Tim Cox

MO 65746-8860

"Stop deforesting our trees just to be greedy for coal. Find it elsewhere."

Eleanor Cox

NC 28722-7464

"It doesn't make sense to me for our country to allow mining of more dirty sources of energy. Instead we should be investing in less poluting forms of energy."

Susan Cox

OH 43147-7855

"Let's go to renewables that don't require us to wreck the planet!!!"

Chadwick Cox OK 73071-4828

"Not only is that providing coal, dirtiest fossil fuel, but this is wiping out a major carbon capturing system as well."

Linda Cox

TX 75067-5304

"The age of coal is over. It is time to stop mining it and leave the wilderness wild."

Catherine Cox VA 20158-3455

"Stop Arch Coal from destroying even more of our environment for good. No more loop holes for polluters. Put their money in renewable energy research!"

Allison Cox

WA 98070-7808

"Stop coal mining in our forests!"

Steve Cox

WA 98105-4302

"wild means wild! For the people, not as a resource for the private sector! Stop selling public land resources to pay for an unbalanced budget!"

Nicole Coxon MI 48871

"We need to preserve what wildlife we have left and keep our forests intact. Fossil fuels should no longer be

mined as we are now aware of the havoc we are wreaking on our only home."

Phoebe Cozad WI 53177-1022

"We need to treat our forests as the true treasures they are and not exploit them merely for profit."

Phillip J Crabill TX 75068-5249

"Our wild lands and wildlife must be preserved for the benefit of us and future generations!!! Climate change will make the human species become extinct if we do not act NOW!!!!!!"

Toni Crabtree FL 33023-6024

"Stop the insanity of systematically destroying the very earth we live on! Wake Up... Coal is OUT! How

stupid are you people? Forests produce oxygen and global warming will surely kill us one day if people like YOU don't wake up!"

Fred Cradler WI 54311-7203

"Dear Forest Service: if you allow Arch Coal into Colorado, I imagine Earthjustice will be looking into your possible reasons for favoring this rich, rich company over the United States. Since we already pay your salaries, you wouldn't want more money from any other source ... or would you?"

Walter Craft LA 70117 "#N/A"

Karen Craft

OH 45042-8142

"We are creating other energy resources so that destroying thousands of acres of untouched forest is unnecessary and a waste. Let's leave something for future generations to marvel at."

Joan Crafton OH 45429-3358

"It is the right thing to do. We do not have the right to kill the land. It is on Loan to us from The Creator."

Tom Craig

CA 93534-6400

"Now is the time to let these dirty industries fade away. Stop fouling the nest. Commit to renewable energy sources."

Ella Craig

CA 95540-2856

"We must protect our forests! Please don't allow coal mining to take place in these roadless area."

Jill Craig

MD 21756-1505

"I believe roadless should mean roadless for all companies. These 65 miles of road are not needed and are being constructed to help Arch Coal."

Janelle Craig MI 48864-3608

"Stop ruining our heritage. Think about the future."

Shelley Craig MN 55126-8440

"If you have children or grandchildren, surely you care about the world they will live in some day. Please do the right thing, look deep into your heart and know that the destruction of our planet is A very avoidable action if we become conscious of our decisions and values. Thank you very much."

Annette Craig MO 65686-9645

"Stop destroying the forests. The earth was not created for humans to destroy--and that is exactly what they are doing. Stop this atrocity before it's too late."

Debra Craig

NY 14624-4011

"Our pristine forests need to be protected . To allow Arch Coal to bulldoze thousands of roadless forests is going in the wrong direction--as far as global climate change goes and the needed movement away from the destructiveness of fossil fuels. Do NOT allow this destruction and de-evolution!"

Morgan Craig

PA 19103-1330

"Do we not see the wood for the trees? When will avarice give way to common sense? Perhaps when there is nothing left..."

Brenna Craig WV 25168

"Arch Coal has destroyed my home forests of West Virginia, don't let them destroy yours."

Wanda Crain NY 13838-8609

"Our future environment needs protection, not destruction through road ways in our forest for coal. Come on - Wake up, money won't buy you Fresh air!"

Sister Eleanor Craiog KY 40049

"The bulldozing of pristine forest is just not okay. We have to leave the coal in the ground in such precious places, just as archaeologists have begun to leave precious artifact in the ground because their extraction methods are too destructive."

"so yet again, some a-holes in the Forest Service are getting back-hander from Big Business to allow this to take place - look for the guy driving a Merc?"

Randy Crawford MT 59063-0428

"ARCH coal is in trouble .. they cannot be bonded for enough capital to allow them to go forward on further mining. It is time to halt the taking of coal and halt the incursion of mining in roadless areas. This taking of resources is not in the best interest of the public or clean air."

Todd Crawford NC 28445-7026

"Thank you for reading my letter. This is exactly the behavior that must stop immediately so I am confused as to your even considering allowing this egregious and extremely destructive activity. I hope that your consideration of the application is merely administrative in nature. Please do allow this coal company to destroy more of our pristine areas. Coal as s fuel is rapidly on its way out. Please help it move out a little faster."

Jacqueline Critser OR 97078-2332

"As a person who enjoys the wilderness areas of this country, a former resident of the Ohio coal producing communities, and as the daughter of a former Fish and Game warden. I have seen first hand the devastation that coal mining leaves in its wake. coal mining is an absolutely filthy, noxious, toxic, environmentally hazardous undertaking that will ultimately destroy all that it touches. It is particularly galling that it's being allowed on public lands without the public being allowed to give their input or receiving any recompense for what is taken. We are in a critical time in the health and survivability of our planet, I t would be an act of rank and unthinkable hypocrisy for our country to have sent our President to the Climate Summit while simultaneously and willfully adding to the carbon and methane overload by allowing this, and other fossil fuel projects to proceed. This constituent, this partial-owner, if you will, of public lands is urging you to cancel all leases for the procurement of fossil fuels on public lands. Leave it in the ground."

Denise Croft CA 92023-0307

"The Colorado Roadless Rule should not be breached in favor of coal mining. It will destroy vital wildlife

habitat that was created to protect the natural environment and all its life forms. That the forest service would consider desecration and breaking its vows to protect this land for exploiting it is unconsonable. Too often these days the Forest Service shows greed and irresponsible breaking of its mandate to protect our wildlife. Are its leaders being bought off with bribery money from corporations? It certainly seems to be the case. Disgusting and a betrayal of the people of the United States and the many devoted employees who must abide by the corrupt hierarchy's policies or loose their livelihoods. I urge you to do the right thing and show some spine against those who would make you feel shame in later years. Keep your integrity."

Margaret Croner MO 63146-3601

"The problem with we Americans is that we want immediate gratification especially when it comes to making money. The planet, the forests, and all of nature need to be taken care of in a way that shows stewardship vs. greed. Loopholes have nothing to do with anything but money and greed. The internal combustion engine is old fashioned and inefficient wasting 80% of its energy as heat wear as electric cars use 80% of the energy for torque. Coal is filthy and destroying our environment in so many ways. We don't need it. We don't want it. Solar energy can easily power the world just by using existing roof space. All we need is storage and there are so many ways of doing that. Why don't you put your money in emerging markets? That's where the money is. you know, for people who claim to be capitalists, you sure don't get how to make money. Get in early and get out before it collapses. It's collapsing now so you better get out. Here's one storage method you can get started on. Use excess solar energy during the day to winch heavy weights up towers, existing ones will do. Then drop them when the sun goes down."

"Since 1952 with the Immigration and Nationality act, it has been illegal for Congress or any duly appointed official. To allow the admittance of any foreign being into the country who is part of, or subscribes to, any institution or religion that seeks the overthrow the US Constitution. That would mean all talmudic based religious clubs, both of them judaism and islam, are illegal in this country. As they are terrorist organizations to the US Constitution in ever seeking to replace the US Constitution with their homosexual pedophile only agenda. All synagogues and mosques must be converted to public libraries and museums with these talmudic espionage clubs banned and all arrested at every level acquiescing to talmudic agendas. These demented aspirations of a 240 year old 7 generation club, should be a case history in a psychiatric college. Instead the 1800 extended family members of the house of rothschild have manipulated the worlds banking through unmatched quantity of controlled assets in the worlds countries finances since 1815 when they acquired England. No admittance visa can be granted to any individual who is affiliated in any manner with islam or judaism as these clubs both seek to overthrow the world and state murder is fine of none club members, it is not. The people of each country where this psychosis is accommodated must make arrangements to have the adherents of these clubs institutionalized. "It is a crying shame that such destructive deforestation is permitted to take place at all, let-alone for the purpose of adding-to an already out-of-control pollution-problem (i.e., the mountains of coal ash). As if that weren't enough, I am convinced (on a personal level) that there are multitudinous "answers" buried within EVERY coal-field, that will *never* be discovered if they are dug-up by traditional methods. People in positions of control over such resources SHOULD be responsible, and held accountable to the people of this nation. Their responsibilities should include insuring the involvement of appropriate personnel (scores of college - archaeology/anthropology students, with appropriate leadership) to find those "needles in the haystack", before they are forever destroyed. "These thousands of acres being torn down could have a severe impact on the surrounding communities. This could result in loss of a keystone species or habitat which in turn may lead to a loss of ecosystem services. Areas of deforestation have been known to harbor more disease, increased vulnerability to natural disasters and increased frequency of these disasters, and quite frankly coal mining is horrible to an economy that thrives

on tourism. To follow this argument, I'd like to remind you just how shitty coal is to our environment. Countless scientific studies have shown burning and mining coal destroy environments, communities, and ecosystems. The surrounding communities will have to deal with landslides and horrible air quality that could show repercussions in their current physical and even reproductive health. Striping pristine forests to replace them with huge, polluting, unnecessary coal mines has so many negative effects that the human economic benefits are mathematically not worth it. Various other agencies have put a numerical dollar price on air quality and a clean environment. It's economically, environmentally, morally irresponsible to allow Arch Coal to destroy this ecosystem. Please do more research before continuing this project, and I promise you'll find the costs outweigh the benefits."

"The "loophole" the U.S. Forest Service is considering to make it possible for Arch Coal to reap profits while wrecking havoc across thousands of acres of pristine roadless forest in Colorado is dangerously bad precedence. Coal companies are free to bulldoze and extract coal from many other lucrative places across our great land. The whole purpose behind National Forest (and other related protected) areas is that these set aside tracts of land are to be protected from exploitation and used more equitably.

Brian Ditzler MD 20910-2718

"I am amazed and disappointed that the Forest Service would even consider reopening a loophole in the Colorado Roadless Rule to permit 65 miles of road to be bulldozed for coal extraction. Not only would this set a dangerous precedent for damaging wild lands, it would lead to coal burning that has been proven to be enormously damaging to human health and our environment. Please do what's right for for the public good and

not what Arch Coal is asking for."

Jason Diven

"To Whom it May Concern: The very idea of allowing coal mining on public lands is simply furthering the tragedy of the commons. The USDA Forest Service must not allow Arch Coal to remove any coal from public lands - it is a sad irony that it is even being considered given the preponderance of evidence supporting the exacerbation of climate change through increased CO2 production. Fossil fuel use needs to be curtailed, nor encouraged by facilitating extraction by private profiteering corporations on public lands. "If the attorneys general can consider whether EXXON has been criminally negligent in denying the health and environmental destruction caused by coal it may be perfectly legal to charge government decision makers like those who sit on control of the forest service, with criminal negligence for releasing lands to coal mining given what is now documented about the health and environmental effects of burning coal. My guess is that either you are in the pocket of big coal, or that the government has so restricted funds for safeguarding forests that you are desperate for money from leases to shore up your budget. They are the result of the same greed. You shall be removed from the forest service if you do not carry out your mandate, starting with Teddy Roosevelt, to preserve and protect our forests."

There should be no easy way for mining operations to pay pennies on the dollar for tearing through wilderness lands that belong to the public. That said, there's also the idea that this is about the fossil fuel coal. It is non-renewable and adds to carbon pollution and global warming. "No way! Private corporations should NOT be able to profit from the (destruction of) public National Forest Lands. And coal???! With the impending disaster of global warming hanging over our heads, can this be anything BUT foolish and irresponsible? Don't allow this!"

Linda Dow

CA 94703-1506

"Don't allow Arch Coal or any other mining companies to destroy our forests by bulldozing to create roads through forest in Colorado."

Ann Dow OR 97031

"Allowing motorized access in a roadless area, especially in order to extract fossil fuels, violates the principles on which National Forests were established. Deny Arch Coal the opportunity to exploit our public lands."

Protect ecosystems in roadless areas, and keep coal in the ground."

Patricia Dowd CA 93422-2940

"Please find it in your hearts to stop this waste of our planet... coal should be obsolete before you die."

Irene W. Dowdell TN 37421-8803

"I opposed this kind of horrible damage to our environment. As it is children are burdened with asthma and all kind of respiratory diseases. Do not allow Arch Coal to destroy the environment and our lives. I believe in a cleaner environment for the our children and the future."

Dennis Dowell IA 52627

"I cannot emphasize enough the importance of leaving this forest is place. The good that these trees do for the earth's environment far exceeds the need to Arch Coal to make profits that benefit only a few while adding tons of carbon to the already devastating pollution in our atmosphere. As the Forest Service, you are obligated to protect our forests, not sacrifice them to the pantheon of profit and greed."

Chet Dowell

WV 26151-8047

"Stop the senseless destruction of our pristine forest. Its time to scale bag destructive coal mining."

Gretchen Downey CA 90503

"Please stop the mining of coal immediately. Become conscious stewards of our earth and change your decision to mine coal in the pristine lands of Colorado. We can't get back the damage that is done for profiteering. May you hear the voice of higher wisdom and do what is right. Thank you."

Carrol Dower OR 97402-1451

"Coal mining is dirty, dangerous and finite. Do not ignore the success and profitable alternative renewal energy of Wind, Solar. Coal mining is just wrong. We can do so much better. Do the Right Thing. Stop Mining on road less Forests!"

Laraine Downer CA 95405-7965

"Please! I have grandchildren & am very concerned about the world we're leaving them."

Bill Downey

AZ 85373-1833

"Same message as the oil companies get !! Make them responsibly the restoration of the forest and its land for 50 years after the last chunk of coal leaves the mine. The company must makemonthly contributions to a "Trust Fund" so that if they go broke the money to clean up their mess is already in place to cover the cost.Trust to be held separately from the Company and Government.Managed by a Pension fund manager whose track record dates back at least50years . Bill downey"

Jean Downey FL 32792-4700

"Please do not facilitate the destruction our traditional American wild forests and wildlife, to enable the profit of Arch Coal.exports to foreign companies. This will not save their business in the long run; they need to shift their focus to sustainable energy. Colorado used to be a beautiful American state, and has already been much ruined by the fossil fuel industry. Please save what is left for future generations of Americans. Don't let it be further destroyed for coal exports to China where people are dying from breathing coal burning toxins."

Linda Downey NY 14228-3274

"Stop Arch Coal from bulldozing thousands of acres of forests in Colorado!!!"

Jennifer Downing NJ 07460-1133

"Eliminating pristine forests to perpetuate a filthy industry is unacceptable behavior~!"

Jacquelyn Downing OR 97473-0565

"I grew up in West Virginia and know quite well how horribly damaging coal mining is to the countryside and surrounding environments. This has to stop for sooo many reasons."

Deeann Downing UT 84060-7427

"Please protect the luscious mantel of this Earth. She gives us EVERYTHING w need to survive. Can you consider that--deeply?"

Kathy Downs AR 72641-0292

"Please stop this! These Re public lands....our lands...not for private coal exploitation and ruination. It

cannot be allowed!"

Bruce Doxey NV 89448-1386

"Coal is over with. End this mindless destruction of forests. The forests may be our salvation!"

Kate Doyle CA 92887

"Seriously Colorado! Look at all the devastated land and towns around the world that have let mining take over,

wake up and don't pursue it in Colorado! It's one of the most pristine gorgeous states with huge tourism dollars, don't fall into the trap of quick money at the expense of natural beauty and tourism."

Patricia Doyle IL 60527-8392

"We all live in this world and letting Arch Coal reap profits while contributing to climate pollution just isn't right. We all will suffer from their actions."

Maurine Doyle MA 01880-1807

"We need to stop mining coal - and put All our energy into Solar, Wind and Water Power Sources"

Crystal Dragonfly KS 66087-4219

"Leave the forest alone for my future grandchildren my see it and enjoy it!"

Casimir Drahan OH 43537-2809

"I believe that modifying the Colorado Roadless Rule would set a dangerous precedent for our wild lands, as well as adding huge amounts of climate pollution to our atmosphere. Please reconsider."

Candace Drake

"This is insanity at its peak. Please try to leave something for our children. Stop the destruction of our country by corporations Doesn't anyone in the corporate world care?"

Barb Drake

"Coal is the death of our climate and the death of our species."

Steve Draper MD 21520-2201

"We have lots of coal. Wilderness is much more important, we can not make more wilderness."

Lynne Draper NH 03057-1430

"Please keep the Colorado Roadless Rule as it is."

Steven Dreber OR 97530-1242

"Stop coal extraction now or they'll kill all of us for sure!"

Christopher Dreger

"With the coming of the hydrogen fuel economy, currently in production by Toyota and other car companies making hydrogen fuel cell cars, the days of using coal to create energy is fading, and this mining of pristine forests is a waste of time and money and energy. Hydrogen is the ultimate fuel source, being the most plentiful molecule in the universe as well as being clean burning. We've all seen the devastation of mountains in the Appalachian range. Don't let it happen in Colorado."

Sandra Drescher TX 75002-4609

"We need All the Forest that remains in the world!! Please don't bulldozer the Forest No more Coal!! Clean Energy!!!"

Henriette Dresens MA 02090-3406

"President Obama and climate scientists agree that if we want to halt the worst potential damage from climate change, we must keep some of the world's known fossil fuel reserves in the ground. The Forest Service should draw the line here, where mining coal will spew huge amounts of methane and destroy wild forest."

Chris Dresser

"For our children, please!"

Sylvia Dresser IL 60015-3904

"We must save what cannot be replaced."

Ken Drew Jr

"Please save our forests from mining while at the same time ensuring clean oxygenated air for us to breathe."

Peter Drewes WA 98229-3172

Kerry Drewett ID 83704-6753

"NO MORE COAL MINING PERIOD!"

Dave Drews

"I oppose the Forest Service proposal to reopen the coal mining loophole in the Colorado Roadless Rule. No roadless bulldozing loophole for Arch Coal."

Jack Driscoll CA 94134

"U.S. Forest Service: Please discontinue authorization of coal mining in roadless forests. Thanks you.

Sincerely, Jack Driscoll"

Adam Driscoll NY 14437-1637

"Save the forests that we have left, please."

Anna Driskill MO 64068-9368

"Coal won't last, but the damage from mining it is irreversible."

Arthur Drisriliaris RI 02908-2736

"Coal is so 19th century, way out of touch with reality in the 21st century!"

Tony Driza

"This is totally unnecessary - not the energy we need moving forward. The profits of a single company should not trump the environment!"

Craig Drizin

CA 95060-6133

"It's time to stop tearing up forests to get coal for energy that speeds up climate change. We need to leave the forests in place and move to low carbon energy. I urge the Forest Service to do its' part and say

no to Arch Coal's 19th century business plan."

Jerry Drucker IL 61281-8503

"FOREST SERVICE: IT'S YOUR JOB TO PROTECT THE FOREST! PERIOD. DO YOUR JOB, FOR GOD'S SAKE! FOR AMERICA~"

Jon Drucker

PA 19143-1626

"Wow, profiting off the destruction of our public lands, polluting one of the last great American treasures, AND accelerating climate change - what could possibly go wrong? Please don't reopen the loophole."

Allyson Drucker SC 29732-2475

"Profits for Arch--destruction of OUR forests. This is ludicrous--especially when the money they pay to do this is not spent on the people anyway!! MONEY OUT OF POLITICS and crap like this can STOP..."

Pauline Druffel WA 99204-4372

"This makes no sense at all. Our climate stability requires that we leave the coal in the ground, not take it out and destroy thousands of acres of pristine roadless forest in Colorado in the process."

Gloria Druss PA 19003-1424

"Dear Sir or Madam: I am requesting that you not allow Arch Coal, or any other coal company, to bulldoze thousands of acres of pristine forests. Like so many others, I treasure our wildlands, and I cannot abide the thought of their being ruined. Please re-think this proposal. Thank you for your consideration. Gloria Druss"

Adam Dsousa UT 84092

"Coal energy is not worth the pollution. The world should be and will be moving away from coal burning as an energy source, so allowing for circumvention of laws already restricting coal mining would be a step backwards. I really appreciate your consideration in this matter, as I know we all want to do the right things for everyone."

Joi Du Bois

AZ 85379-8750

"unless the areas where prior coal production took place are 'spent' and restored, i disagree with roadless forests being culled."

Barbara Du Bois CA 95436-9304

"I come from coal country. In West Virginia in the early 1940s, my family benefited from affordable heat by burning coal...and my father took me to see the strip mines that he warned would ruin the beautiful, nourishing country we called home. There is worse than strip mining going on now, of course - "mountain top removal" doesn't just harm, it destroys...lands, streams, forests, homes. And now we see the extreme danger to our pristine wilderness areas in the arrogant intentions of companies like Arch Coal and those who would support them in literally making inroads to take coal from roadless forests.

Please stop this rape of land and climate."

Nancy Du Plessis NY 11238-3402

"It is incredible to think that this is even an issue! We have to stop using coal, period. NO MORE MINING!"

Raquel Duarte AZ 86314-2026

"We should have no tolerance for short-sighted acts such as this. The consequences are just not acceptable in the face of our already ravaged environment."

Monica M Dubina IN 46168

"Stealing pristine forest from the American people, people like myself and my family, well, it's just wrong. We are moving towards clean energy. This action is not well thought out and should be stopped. It's a disaster in the making."

Shannon Dubois

"I am opposed to destroying much needed habitats for the mining of an outdated and dirty resource. Instead of destroying our land we need to be building the infrastructure and funding projects that are clean and renewable. Please don't allow the destruction and division of pristine habitat!"

Monica Duclaud CA 94107-4106

"Just a few days ago the USA agreed with over 200 countries in Paris to get serious about fighting global warming. Allowing Arch Coal to decimate critical forests and wildlife, and add outrageous amounts of climate pollution into the atmosphere, is a real insult to all Americans and the world. The Forest Service must act responsibly by blocking Arch Coal's appalling project and protecting Colorado's roadless forests."

Jerilyn Duefrene CT 06357-2938

"NO loopholes! Stop hurting the Earth and environment!!!!"

James Duellman PA 16411-9735

"We shouldn't let Arch Coal scar our forest's, the damage done will last forever and can not be undone!"

Robert Dufault

"Remember, F.S. - it's "We, the People" - those of us who can't afford to buy tracts of wilderness and can barely afford to visit them, not "We, the Plutocrats" who can."

Larry Duff

Barry Duggan IN 47429-1269

"Stop the law-breaking land-rapers !!"

Jack Duggan OR 97530-0524

"I understand the pressure being applied to federal resource management agencies to provide economic benefits from public lands. Leasing coal extraction sites that deplete the value of public lands, however, is not a viable long-term management option. Leasing those lands for a continuation of a fossil fuel economy is akin to suicide. Stop ruining public lands to mine for fossil fuels and participate in saving our planet."

Carol Dugger NC 28712-9818

"How can this possibly be rationalized? Please, please close this loophole and stop this exploitation. Reason should prevail!"

Edward Duhaime

"As a former Colorado resident I am against the destruction of forests in order to further the extraction of fossil fuels."

Thomas Dukes TX 78209-5532

"Loopholes for coal mining have no place in the Colorado Roadless Rule. Arch Coal should not be able to pollute for profit, and the Forest Service must act to stop them."

Carolyn Dulai

"loophole or not we cannot have more coal production. say, no, to arch coal now and forever. the coal must stay in the ground."

A Dulfer WA 98070

"Stop mining roadless forests. Keep the coal in the ground."

Susan Dunham MA 01098-0423

"Aside from the environmental hazards of the mining operation itself, this forest acreage has been protected for a reason. It is completely unreasonable to pave it and destroy habitat and ecosystems simply so that Arch Coal can make a profit."

Marilyn Dunham OR 97225-4216

"We need yo protect road-less forests if we are to ensure the survival of our planet's diversity. Coal is a dirty fuel. We would be better off building windfarms."

Dave Dunkak OR 97215-3360

"That's really going to be of help. Murder tens of thousands of trees so they can rape Earth, more, while we're in the middle of trying to find ways to reverse Climate Change, thought it's possibly too late. What foresight! Greed kills."

Jim Dunlap

IA 50325-1203

"Our forests and parks are national treasures. We don't need them despoiled by greedy companies who don't care about them, but only about money."

Sandra Dunlevy PA 15301-3608

"Taking coal from Colorado is in opposition to the climate talks in Paris. Trees clean the air and coal pollutes the air. No more coal!"

Caere Dunn

AZ 86303-4622

"Coal is the worst offender of the atmosphere-changing fossil fuels - we need to look toward a cleaner future, not a dirtier one at the expense of irreplaceable pristine forest."

Scott Dunn

CA 95060-4434

"This is not an energy solution for the USA. We can do better. We have the opportunity to build smarter solutions that will have much less impacts on the environment."

Christy Dunn VA 23947-3407

"Coal mining has destroyed way more public land and water than it should have already. We need to look to other solutions so we can preserve the earth we live on in a livable state."

Timothy Dunnbier MA 01742-2333

"Protect our forests. Coal is not the solution to our energy problems."

Pamela Dunne VT 05443-9555

"This proposed action makes no sense to me. When we are working to lower the damage we have done, and are currently doing to the environment and climate, why is this even on an agenda? I want my earth taken care of, I want forest left intact. Why would we do this for the profit of a company and not for the greater good of the planet and all of us who love our earth and the good things that it offers? Close that loophole!"

Kathleen Dunning

FL 32314

"With pristine forest becoming ever more rare and coal being phased out as a fossil fuel in the market place it makes NO FISCAL SENSE to spoil prime land which is also generates increasingly valuable water for a coal mine. Coal is on the way out. Be smart -find a better investment. Coal is Not a smart choice. Ditch the Arch Coal mine. It's missed the boat. Time to more to better energy sources. Kathleen Dunning"

James Dunning WI 54701-4760

"This area is far more valuable than the amount of coal that will be removed. Keep mining out."

Irene Dunny CA 92127-1370

"Burning all that coal would destroy what is left of our world after mining the coal. Please do not do that to us."

Norma Dupire OH 45690-1532

"We need much more wilderness and much less coal mining for the survival of our ecosystems."

Robert Duplessis PA 19146-1148

"We don't need roads through our national forests and we don't need coal mines. The Forest Service must realize that we are in 2015 and that we need to cut carbon production not encourage it, and then act accordingly. No roads, no coal."

Chris Dupont NV 89052-2616

"We must, MUST, preserve what is left of our wild lands. Please reconsider, for us, for our children and generations to come. Please."

Rosiland Dupont TX 78382

Anita Durakovic CA 94109-7569

"The forest service is suppose to protect the forest, right? Where is the justice in selling the forest to corporations not caring about the earth? I want to breathe. We need trees. And to be harmony with them or future generations will die."
