Jesse Kaltenbach CA 94952-4719

"Just wake up. We are stewards of the earth for the future generations. Grow up"

Natasha Kaluza CA 94803-3857

"People over profit. NOW!"

Susan Kam

TX 78229-3071

"how do you not know that trees take in carbon dioxide and release oxygen. if you keep cutting down trees we are going to stop breathing. I know you don't worry about the future when you won't be around but it's closer then you think. you may be gasping your last breath is a very short time"

Jason Kamalie CA 94111-2502

"The cessation of the procurement and use of all dirty energies and fossil fuels is long overdue, as is the transition to green, clean, renewable, sustainable energy sources, technologies, and devices."

Anna Kamide IL 60106-3206

"Stop the bulldozing of roadless forests! Coal?? Seriously?"

Joe Kaminski NJ 08052-3210

"It's about time we left fossil fuels where they are, where they belong, where they're safe. Big coal, big oil, McConnell, and the rest of them need to grow up and smell the coffee."

Karen Kampmann CA 90720-3747

"No to the Corporate takeover of our Country and our natural lands. No to further dirty fossil fuels."

Scott Kampschaefer TX 78749-2839

"We don't need more roads to sully the environment in pristine areas. Keep our green areas green! Thank you,"

Henry Kanar MI 48105-1522

"Stop this insult to the land. Let nature be undisturbed by such distraction."

Karen Kane

CA 91350-2051

"We need to preserve our forests for future generations. We have destroyed more than we should in the name of progress."

Dori Kane

FL 33613-1706

"It is time to recognize the impact that creating roads into wilderness areas has on our environment and climate change. Please stop the road building and coal extraction and burning. Let's turn to more sustainable energy sources now!"

Shirley Kane NM 87048-8572

"STop these Roads. Pay these miners to stay home"

Patty Kane

TX 76016-3737

"Please stop Arch Coal from ruining the forests in my beautiful home state of Colorado. Is nothing

sacred except the blasted almighty dollar? This has to stop now!!!!!"

Betty Kang

OR 97401-1817

"Coal is a filthy source of fuel. We need to shut down coal mines not open new ones up on pristine land and

forest. BK"

Richard Kanner UT 84109-1214

"The natural state of the land is much more valuable than an obsolete and harmful way to obtain energy. The sooner we stop burning fossil fuels the better."

Valerie Barnard Kanofsky NY 10021-3381

"The Forest Service once again selling out the American People. The Colorado Roadless Rule was put in place to stop such a decision. Shame on the Forest Service!"

Carolyn Kanter NC 28805-1166

"The burning of coal is one of the top destructive elements to our atmosphere. Just look at China's thick haze and respiratory problems of its citizens as a stark reminder."

Cristina Kaplan CA 95401-9060

"Keep it in the ground! Renewables are where we need to focus."

Anne Kaplan PA 19118-3828

"There is no need for us to continue to use coal and we must stop mining it. There is no need to open new mines in pristine forests."

Robert B. Kaplan WA 98362

"Arch Coal must not be encouraged to build another coal arch into acres of pristine roadless forests."

Catherine Kappel MA 01453-2849

"The only winner in this arrangement is Arch Coal who will be given the green light to add huge amounts of climate pollution to our atmosphere, all at the expense of a wild roadless forest. Why are their interests more important than continuing to protect this pristine area for future generations of people, animals and plants? It simply makes no sense to not to keep the Colorado Rule as it is. The climate costs of this proposal are simply too high. "When the last tree is cut, the last fish is eaten and the waters no longer flow, perhaps then we will realize that we can't eat money". - A Cree Indian. Catherine Kappel Leominster, MA"

T Kappelman CA 92651-1879

"Please don't bulldoze our rainforest!"

Glen Kappy

NM 87106-1511

"Bulldoze acres and acres of pristine roadless forest in Colorado to mine coal? Don't let it happen-- please!"

Lisa Karas

WA 98042-4425

"Public land was not set aside for profit making, land piling corporations. Leave these places as they are for wildlife. P.S.....COAL IS DEAD."

Lois Karasek MI 49047-9726

"We need to do everything to protect our valuable forest land. We canNOT allow indiscriminate destruction to make unnecessary roads. NO ROADS for Arch Coal."

Barbara Karcher GA 30060-8222

"Save our wild forests!"

Carol Karimi CA 94117

"Arch Coal you are destroying the planet and the environment. Your greed is killing the environment. You are responsible for the planet's environment."

David Karlson CA 94550-6346

"Colorado is beautiful. I got to explore it while there with the U.S. Air Force. Don't make it look like one of our planes bombed it for a DIRTY fuel!"

Anne Karmon MI 49009-7527

"Please save our natural resources for generations to come behind us. Thank you."

Sarah Karnes WI 53147-3635

"Re-opening the loophole will benefit one company--Arch Coal--while paving the way for mining more than 170 million tons of dirty coal. This could add 130 million tons of carbon dioxide pollution into the atmosphere and cause as much as \$13 billion in damage to the world's economy and environment. The climate costs of this proposal are simply too high."

James Karon WI 53217-2205

"We as a country are trying to convince other countries across the world to burn less coal and other fossil fuels, and to save their forests. Why on earth would we want to bulldoze large areas of roadless forest for a coal mine?"

Diane Karp

NM 87505-1616

"Arch Coal does not represent the best interests of the American people or the American landscape. PLEASE do not allow them to build roads in pristine forests that are the inheritance of our children and future generations."

Nechama Karp NY 10009-3735

"Leave it in the ground. We don't need you to rape our forests and earth for energy. We have many alternative energy sources. The value of energy the pristine forests provide; offsetting carbon, outputting oxygen, old growth trees creating a cooling effect protecting the ozone, the water table just under soil level feeding agriculture, is much greater value than whatever coal you can dig up in the same square foot area or tonnage volume. STOP bulldozing and digging for coal in roadless pristine forests.

You are not helping anyone by doing that."

Betty Karpen MN 55614-4232

"Please keep the forest intact; it is for generations to come, and incredibly valuable"

Ellie Karr

NY 10065-6227

"Polluting pristine forests is not progress it's greed and corruption."

Lynne Karson VA 22182-3333

"The Forest Service must be losing their minds, or else what? Money, lobbying, just plain politics? Do the (insert your favorite expletive) right thing and not destroy pristine forest land. We do not need that coal. If it stays in the ground, hopefully a greener fuel will be used instead."

Danielle Karunadasa NY 10301-2806

"Please preserve and do not destroy. The soul and spirit of our nation and its people depend on it. Love thy mother. Our mother is the earth - the only one we have. Respect and protect and embrace and enjoy."

Jessica Karwatske NH 03055-3831

"Coal is an antiquated form of energy. We need to preserve our pristine forests and seek alternative energy sources!"

Nick Kassam FL 33068-4255

"Coal is bad for us and we need alternative solutions"

Mary Ann Kastorff MN 55407-3652

"Please, no more damage to the environment for backwards thinking, climate damaging coal. This is completely unnecessary and is inconsistent with the administration's stated climate goals."

Rosemary Kaszuba

"Please stop coal mining on this land."

John Katakowski MI 48101-1391

"Coal is a dead source of energy! wind solar and natural gas are far more friendly to the Earth!"

Kevin Kathmann MN 55902-2521

"These laws were put into effect for a reason...to PRESERVE the few wildlands we have left. This 'loophole' certainly violates that. Please do the right thing and oppose this!"

Dimitri Katsaros CA 95129-2021

"not on all our nations children's common and tree covered land should profit the fewest and most destructive"

D. Katten

AZ 85331-8436

"NO MORE COAL and its DISGUSTING EFFECTS!GO...CLEAN ENERGY ONLY NOW!"

Marilyn Katz CA 90069-0247

"This is a moral sin and a crime. Anyone while does this belongs in prison."

Laura Katz

CA 94501-3161

"We need a clean environment much more than we need this coal. In fact, we don't need this coal at all."

Bryan Katz

MD 21209-3902

"The Forest Service needs to be shut down and reopened with new leadership if this atrocious project

goes through."

A Kauffman

CA 94133-0090

"Keep the coal in the ground! Take a look at the air quality in China today. It's dangerous. We need our forests!"

L. L. Kauffman KY 41076-4200

"This is a ROADLESS area and should stay that way. Keep Arch Coal from trashing these wild areas with its bulldozers. This is an outrage that must be stopped."

Irene Kaufman CA 94112-1345

"It's not necessary -- though it may be viewed as expedient -- to bulldoze a forest. Why not work with local communities to create jobs that benefit both sides of the conversation without needless destruction of the roadless wildlife habitat the forest represents?"

Melanie Kaufman CA 95610-6723

"Our National Forests belong to all Americans, not businesses or corporations. In a time when we are choking on our own filthy fumes, when Prince Charles and other scientists are calling for the world to stop cutting the forests down to help save this planet from complete destruction, it is unthinkable that some coal companies are being given access to OUR national birthright! It is a living nightmare. Please save our forests from greed!"

Lindsay Kaufman CA 92620-1921

"Please oh please, haven't we done enough damage? Let's help preserve the earth while we still can."

Marilee Kaufman FL 33908-1608

"Forest Service, Dear Forest Service, don't allow lobbyists and "previously owned" politicians keep you from protecting MY FORESTS! Please, do not reopen loopholes to make it easy on coal companies to waste the environment to get to a substance that is wasting the environment of the whole planet.

Please, PLEASE! Was the Forest Service not adequately briefed on the Paris conference? I, and my grandchildren, NEED YOU TO BE ON OUR SIDE. Big Energy and their Big Money and Big Republicans and Big Lobbyists behave like they can chew up the planet - all I have, as a citizen, is government agencies to count on. Please know that there are a lot of us out here you count on you as our ONLY defense. My grandsons are Wyatt and Emmett - keep their future in tact, and out of loopholes. Please?"

Lois Kaufmann FL 32960-5191

"Our remaining coal should be left in the ground. Destroying forest resources to get at coal makes no sense, economically or environmentally."

Robin Kautz MD 20906

"The greed of Arch Coal in the face of the Earth struggling to stay healthy is reprehensible."

Ned Kavanagh NY 14616-1007

"This type of mining devastates the landscape and pollutes the waterways."

Michael Kavanaugh CA 94115-1711

"Destroying our recreation, our future, for some short-term dirty profits? This would be unconscionable."

Kay Kavanaugh TN 38571-5872

"Do not allow the use of this loophole. Arch Coal should be stopped from destroying our pristine roadless forest in Colorado. This must not be allowed"

Kenneth Kavulia NJ 07731-2343

"I oppose the Forest Service proposal to reopen the coal mining loophole in the Colorado Roadless Rule. We need to move forward into the future with carbonless fuels like, solar, wind and even nuclear. Coal's time is over, but the damage it has done to our environment will continue for many, many decades. We must stop using coal and avoid it continuing toxic legacy. STOP COAL NOW."

W.david Kay IL 61801-4017

"A terrible proposal--climate warming coal should be left in the ground, while climate cooling forests should be preserved. Arch Coal's actions would have exactly the opposite effect. this should be unthinkable, given the threat of global warming that the world faces."

Brian Kay

VA 22202-3761

"Please take steps to stop this harmful loophole from allowing our pristine American forests to be destroyed. And stop this coal company, which steals from taxpayers, from ripping us off even further. Thank you."

Eleanor Kaye FL 33009-3733

"JUSTICE FOR ALL !!!!!!!!!!!!!PEACE ON EARTH !!!!!!!!!!!!!!"

Sheila Kaye

NC 28803-7747

"Please stop the damage to our earth; Prince Charles just posted how dangerous it is to continue deforesting and continuing with fossil fuel. Stop mining, stop deforesting!"

Paul Kaye WA 98356

"It's time to keep it in the ground let alone sacrifice our national forest and wildlife habitat that belongs to all of us just for the profits of a few. Thank you for reading my letter."

Steve Kaylor CA 95032-7353

"Coal is old school. Stop destroying our lands for an outdated energy source that is bad for the environment."

Gabrielle Kayser NY 11801-3212

"we need Nature and must protect it."

Rosanna Kazanjian AZ 85712-1380

"No , it is time, past time to take seriously the preservation of the planet....coal is an obsolete source of energy."

Lynn Kazlousky FL 32080-6580

"Do not promote the use of fossil fuel in our country. Deny the senseless destruction of our environment to give Arch Coal profits. Force them to invest in clean energy."

Saeed Kazmi

TX 78754-5971

"We did not inherit this earth; we are borrowing it from our children. So let us protect it."

Stephen Kealhofer CA 94549-2423

"It makes no sense to open roadless wilderness for coal mining. Coal is a deservedly dying business, with production increasingly being aimed at the export market to countries with weak environmental regulation and enforcement. To support that activity while simultaneously inflicting the harm of road creation on wilderness is antithetical to the interests of the United States."

Michael Keane NJ 07762-2414

"Enough! of the sweet-heart deals! The coal industry is a major polluter and alternatives must be developed."

Carol Kearns CA 95983

"Please stop this terrible desecration of wild forests!"

Alix Keast

NY 10025-6816

"Thank you for reading my letter. We all know coal mining is a major source of pollution, and it is slowly but surely being phased out as a source of energy. Please use your intelligence to block any new coal mining, especially in our nature preerves."

Margaret Fry Keating NY 14841-9718

"Our forests are our greatest resources.. please cultivate renewable sources for energy/fuel!!"

Peter Keck

MD 21231-2727

"Coal's time has passed. Please find better uses to protect and sustain our forests."

Greg Kedzior IL 60614-2941

"The United States must be consistent in it's actions to defeat climate warming. Building a figurative bridge by removing wilderness and aiding coal mining is inconsistent with the direction of the United States government in its policy to defeat climate warming. Therefore, I am opposed to any and all actions by the United States Forest Service to allow roads or any other form of assistance that would aid or allow road building or coal mining."

Jeffrey Keebaugh OH 45614-9051

"How much more of nature are we going to destroy for profit?"

Kathleen Keefe NJ 08059-1953

"The Forest Service should protect wild roadless lands, rather than allow them to be bulldozed for the profitable benefit of a company that will then add pollutants to the environment!"

George Keefe WA 98020-4037

"As a hiker and backpacker in roadless wilderness areas, I respectfully urge you to deny the application, which is in direct conflict with reducing the use of fossil fuels."

Susan Keeler IN 46140-9763

"Stop destroying our beautiful forests, which is natural habitat for wildlife and stop polluting our

atmosphere."

JO Keen MI 48756

"Haven't you heard of climate change? Leave it in the ground. The cost is way to high, even for Arch Coal. we're not sacrificing all America's wild lands so you can make some more money exploiting our planet."

Joann Keenan WA 98115-3662

"Coal is oblolete. We no longer need to rape the planet for dirty fuel. There are better alternatives."

Sandra Keene

"The people don't need the coal, the forest is beneficial being left intact, and once the wildlife is gone, it's gone. Can greed really lead us to destroy the little forest we have left???"

Max Keene
AL 35476-5402

"Don't ruin any more beautiful forest and kill more natural wildlife"

Patrick Keene MN 55418-3851

"Wilderness is more valuable than the profits made from destroying it."

Bret Keeney GA 30188-5352

"An absolutely horrible idea. STOP already."

Virginia Keeping CA 95695-6843

"How dare you allow mining, roads, etc to be in our pristine National Parks & forest. This shameful. No coal!"

Janit Kehl
FL 32958-4237

"Coal needs to stay in the ground!"

Steven Keim MI 48421-8808

"Coal harms our environment in multiple ways - it devastates the environment when it is mined, it harms air quality and promotes global climate change when it is burned, and the resultant ash is harmful to the environment. It should not be allowed on any public lands."

Ann Keirms
CA 94546-8427

"It is time to get a clue: Fossil Fuels need to stay in the ground. Period. If you were a smart company with smart employees, you would be working on a new project that involves renewable sources!"

Melinda Keith-singleton IL 60189-8901

"Please protect the forest!"

William Kellenbeck NH 03835-3452

"I cant see how you coal buisnesss like to exploit the pristine wilderness and give nothing back and leave txic wastes that the government will have to clean up but then you don't care because you've got your money. and with this dirty coal you are going to release it into the atmosphere vus pouring carbon monoxide and other chemicals that are bad for the air and environment it its bad enough with global warming that's setting us up at an already unpresidented level I hope you can see what this is going to be down the long road"

Peggy Keller FL 33314-4360

"What gives them the right to take and ruin our irreplaceable lands and forests? They are making a profit and destroying the climate."

Thomasin Kellermann RI 02864-6223

"Why are we still relying on coal? I thought coal was a dying industry. The pristine forest is more valuable as it is; please, please do not destroy it in the name of profit!"

Jace Kelley
AZ 85142-7982

"I have also worked in the coal industry and know how bad it can be for the surrounding environment."

Ron Kelley
CA 94109-1606

"A serious, credible movement is underfoot worldwide to keep at least 80% of fossil fuels in the ground. The extraction and burning of dirty coal ranks among the highest of offenders. The road building alone, besides polluting, will disrupt this pristine area by negatively impacting habitats and silting and overheating creeks and rivers. By considering this loop hole that will essentially solely benefit Arch Coal, the Forest Service is moving in a dangerous, opposite direction. This flies in the face of reason."

Carl Kelley CA 94706

"Leveling carbon-consuming forest to get at carbon-producing coal is definitely the wrong direction."

Patsy Kelley
ID 83638-5310

"STOP! Not only unnecessary, but unwise given our contribution to the world's carbon emissions."

Margaret Kelley OR 97701-4506

"Please protect our forests and the trees that's create oxygen for us to breathe!!!!"

Dorinda Kelley OR 97220-5950

"The forests and mountains in Colorado should ee a national treasure. Do not allow this beauty to be destroyed by a coal mine. Remember the dirty mine that ruined one of your rivers? Don't make that mistake again"

Lili Kelley

TX 76248-2948

"Everyone needs to breathe and trees allow for that. Why are people constantly destroying things essential to life in order to make a short-lasting "want"? Especially when that "want" (energy) can be accomplished through other, renewable means?"

Tom Kellogg MI 49795-9747

"This practice is way too destructive to allow in our forests. It exacerbates an already unsustainable misuse of our natural resources in an effort to keep making profits on fossil fuels."

Cecelia Kellogg WA 98258-9163

"Enough with destroying the environment! Whether its invading forests or polutting the air, coal is an idea who's time has passed. Please, enough."

Vicki Kelly

"Please stop destroying our planet"

Fra Kelly

AR 72207-1612

"Please stop helping an outdated practice succeed in today's world."

Carole Kelly CA 92270

"Please protect the earth. We do not need more coal."

Margaret Kelly FL 32211-6391

"It will be a very sad day when we have no forests left. We will probably not have time to be very sad, however, because without our trees, we will all have died of allergies, asthma, COPD, etc."

Drew Kelly

FL 33458-5256

"Leave the trees alone and the naturally sequestered carbon, aka coal, in the ground. Assez!!!"

Felicia Kelly

FL 32534-4253

"We need trees! Stop being greedy idiots, you're leaving an ugly legacy to this world's future."

Judith Kelly

MA 02532-8356

"Each time you violate the earth in this manner, you bring us closer and closer to extinction."

Tim Kelly

MO 65806-2959

"this will affect you also,(Arch Coal)and your employees!!!"

Patrick Kelly MT 59802-4731

"Setting aside one's feelings or opinions about climate change, this makes no sense. It's is sacrificing the rarity of a roadless area for the benefit of one corporation that has an abominable environmental record. This makes no sense ethically or economically. Stop it!"

Ann Kelly

NJ 08054-3456

"We must protect our natural resources from destruction!"

Mary Kelly

NY 11570-1002

"Too much of our forest land has been sacrificed to increase the production of fossil fuels which only adds to the Climate crisis. Please end this destruction now."

Grace Kelly

NY 12124-0275

"Why would you even consider approving this senseless, destructive initiative? No more coal, please!!!"

Tim Kelly

OH 43068-3218

"Coal is the energy of the past, -don't try to breathe live into this filthy habit."

Christina Kelly OK 74017

"When will this country realize that there is NO WAY to replace what is left of our forests! If we continue to rape this planet, there will not be one for my granddaughter and grandson. Corporate profits is absolutely NOT a good reason to reopen a loophole. Our Government is full of them! Please, stand up for what Americans want instead of the Corporations!"

Joan Kelly

PA 18066-3958

"Leave our forests untouched. Use alternative fuels."

Michael Kelly TX 77598-2512

"We need to start to stop using coal altogether. Between the Co2 and the Mercury alone, coal is one of the worst things we can be using for energy. It is time to stop destroying our planet and our future!"

Nancy Kelly

VA 22302-3301

"Creating these roads is insanity on a local and global level. Stop it!"

Patrick Kelly WA 98665-7046

"Please protect forest land. Thanks. pk"

Kevin Kelly

WI 53901-1808

"Leave the land alone."

Anne Kelly-edmunds NY 11766-1104

"We need our forests! Close the loophole, please."

Lisa Kelsey

WA 98512-9386

"It's in your name: Forest SERVICE. So why are you servicing coal? It must be nice to have no conscience. It makes it so much easier. Coal? Seriously?"

Barbara Kelson WA 98072-1343

"We need to quickly transition away from fossil fuels in order to stop additional climate warming. Allowing more coal mining and increasing road building through forests is double trouble as it causes even more destruction to the natural environment while it decreases the carbon sink the forest provides."

Carol Kemmerer AZ 85051-1021

"Why such action is even considered I do not understand. Our forests are FAR more important than dirty coal!!!!"

Michael Kemmling CA 91701-5320

"Once again we must call on our government to do its job and take action for the betterment of ALL our citizens, not just the corporations."

John Kemp

TN 37343-2859

"It's time that we develop clean, renewable sources of energy and stop the destruction of habitat and beauty that all future generations can enjoy. All future generations will judge us on the quality of life we leave them with. Nature's beauty, clean air and water are essential for life. Do not doom our grandchildren and great grandchildren by allowing this measure for huge profit to go forward."

Laurel Kempe NJ 08057-2273

"No mining, or habitat degradation of our natural lands for coal, natural gas, or lumber. The environment cannot absorb these continued assaults. Continue to block the loophole in the CO roadless rule"

Michael Kemper CA 94109-4915

"Maybe you haven't heard about the crisis in global warming. You know, CO2 in the atmosphere? From burning fossil fuels? Like COAL? WAKE UP!"

Marlana Kempfues OH 45229-1106

"Why don't we take the public funds that would go into the immediate and ongoing damage to our environment and put it into the development of clean energy that is decentralized. This would permit our nation to become less subject to the political and economic coercion of big business."

Randal Kempka NC 28269-8109

"Forest Service, do not approve this loophole for Arch Coal or any other coal company. We do not need more coal mined. We need to get off fossil fuels now, not later!"

Mary Kendall

"Once gone, wilderness is gone forever. Try thinking 7 generations ahead with these decisions and please stop taking the easy road with power and resources. We need new power for a new millennium - the time is now."

Timothy Kendall VA 20170-5421

"Leave the coal in the ground. The planet is choking to death. Develop renewable and non-polluting energy. Hey, here's an idea: the Government can spend billions developing clean, renewable energy and then give the technology to the oil and coal companies as a bribe to quit rendering the planet incapable of continuing to support life. You know they won't quit on their own. Even Donald Trump would likely support a huge transfer of

public wealth to private hands. All the rest of us ask is to be able to breathe safely."

John Kendrick

"this should go without saying: respect Mother Earth. Don't log pristine forests."

Kim Kengor

OH 44406-9628

"Please do not open a loophole in the Colorado Roadless Rule to allow Arch Coal to bulldoze pristine roadless forest in Colorado. Please protect our forests, as they essential to preventing the total destruction of earth's atmosphere. Coal extraction should be shutting down, not ramping up!"

Patricia Kenna MN 55311-1884

"It is unbelievable to me that the U.S. Forest Service would even consider the proposal. Most Americans want to preserve America's forests, national parks and forests for the future for all to enjoy in perpetuity. The most primary concern is the very negative effect on climate change mining this land would have! Re- opening a loophole is bad for all of America and the people in the country."

Elissa Kennedy CA 95616-1801

"This is multiplying the damage! Cutting oxygen making forests and adding more polluting fuel to the world. STOP! Think! You need to focus on clean energy! This is going backwards! Go forward! Save what little we have left!"

Donna Kennedy CA 92501-2330

"We need the forest more than Arch Coal needs the money."

Matthew Kennedy

FL 34429-5596

"Public land is not for private profit!"

Linda Kennedy IL 60304-2112

"What nature took eons to create, mining will only need days to destroy. Our last wild places must remain so for future generations. These precious lands belong to ALL Americans, and are not negotiable for big business to use and abuse as they please."

Bryan Kennedy IL 60462-4839

"Where are we going to go once we destroy Earth"

Alys Kennedy WA 98248-9520

"When coal is a proven toxic to all life and is one of the main pollutants that all science says we must stop using, it is unconscionable that the Forest Service would allow Arch Coal to mine any forest lands. Please help stop the insanity!"

Betsy Kennedy WI 53711-5338

"How incredibly irresponsible!"

Gary Kennelly IL 61201-7127

"With climate change we must move away from using coal to produce energy. And we should not be allowing coal companies to build roads across road-less forests. I urge you to keep Arch Coal from harming our nation's forests."

Tamara Kennelly VA 24060-3850

"We need our forest and wild lands to protect the environment. Big coal should not be permitted to profit at the expense of these valuable resources."

Kate Kenner MA 02130-3801

"We are trying to stop climate change and more pollution, not exacerbate it. This would be huge step backward. fossil fuel companies must hear the word NO. their time is passing and hopefully this will not be a fight forever. The situation is dire and there is the fact that such destruction will ruin the homes of wild animals who live there as their habitats are already shrinking. I implore you to not allow this coal mine to destroy a pristine and much needed forest. It will benefit no one except those making financial gains."

M Kenney

MT 59715-4762

"Don't allow this. Please."

Elizabeth Kennon Williams VA 22924-0215

"Preserve our forests which serve vital functions and are under attack all over the globe. Destruction of another forest is inexcusable. We know that coal mining is causing terrible harm to our health and directly affecting climate change. There is no rational reason for this plan of Arch Coal to destroy thousands of acres of forest. And now that Arch Coal is apparently declaring bankruptcy they are even less likely to spend money on mitigation, and repair."

Paul Kerman MI 48030-0733

"This loophole would set a dangerous precedent for our wild lands, don't do it."

Lisa Kern CA 94925

"President Obama and climate scientists agree that if we want to halt the worst potential damage from climate change, we must keep some of the world's known fossil fuel reserves in the ground. The Forest Service should draw the line here, where mining coal will spew huge amounts of methane and destroy wild forest. Please keep the Colorado Roadless Rule as it is. Reject the coal mining loophole to the

Colorado Roadless Rule."

renewable energy to use!"

Patrick & Diane Kerr FL 33023-5051

"We are amazed and sorely disappointed, to say the very least, that there are actually plans being contemplated to allow this desecration of this wilderness area to mine coal; really, mine more coal!! We as a nation are in the process of moving away, as much as possible, from coal, so the idea of wilderness wrecking to create another coal mining project is beyond belief. Thus, we more than strongly encourage you to be strong, and stand up firmly against, and refusing to open up a loophole in the Colorado Roadless Rule to allow Arch Coal to proceed with their proposal! Thank you for your consideration of our comments."

Americans from voting and/or running for office. This ominous development may well end our experiment in representative democracy unless we alter this decades-long trend. For the sake of the republic, we must amend the US Constitution to state that corporations are not people (and do not have constitutional rights) and money is not speech (and thus can be regulated by state and/or federal campaign finance laws). "So we're trying to get away from coal and hopefully start closing some down but no. You want to go through our roadless area and do a huge coal mine. Now isn't the time and when we created the roadless areas it wasn't the time. They were set to have places untouched from us and corporate gain now you to back track and backtrack us back into the 50s with these ideas. No thanks not on our roadless lands that we own. Nope take your bad ideas back to a time when we aren't trying to save the world from the exact thing your proposing. To pile 130 million tons more of carbon dioxide into our air. Don't think we can add that much more why not instead invest in clean energy that we don't have to put

\$13 billion damage to our environment and economy. Not feasible any more!!!Thanks."

"It is essential that we do not destroy forests to mine coal. Coal is obsolete as a fuel. I would urge the Forest Service to counsel Arch Coal to change their investments to wind and solar. In Iowa some of the major electric suppliers have invested billions in wind energy. Their management and investors see the energy future quite not including coal. The sooner Arch Coal changes its investments to Arch Wind and Solar the better off they and the world will be. Gerald Klonglan Ames, Iowa."

"Dear U.S. Forest Service, I oppose the Forest Service proposal to reopen the coal mining loophole in the Colorado Roadless Rule. Reopening the loophole will benefit one company--Arch Coal--while paving the way for mining more than 170 million tons of dirty coal. This could add 130 million tons of carbon dioxide pollution into the atmosphere and cause as much as \$13 billion in damage to the world's economy and environment. The climate costs of this proposal are simply too high. The loophole will also set the stage for bulldozing up to 65 miles of road on 30 square miles of roadless forest, degrading habitat for black bear, elk, goshawk, lynx and cutthroat trout. Valued recreation and hunting areas used by the public will be scarred for years. President Obama and climate scientists agree that if we want to halt the worst potential damage from climate change, we must keep some of the world's known fossil fuel reserves in the ground. "I am writing in regards to the Forest Service proposal to reopen the coal mining loophole in the Colorado Roadless Rule. Allowing the coal mining loophole goes against every part of the mission of the Forest Service: "to sustain the health, diversity, and productivity of the Nation's forests and grasslands to meet the needs of present and future generations". The needs of the present will be lost with bulldozing of up to 65 miles of road on 30 square miles of roadless forest, degrading habitat for black bear, elk, goshawk, lynx and cutthroat trout. Damaging recreation and hunting areas will not only hurt the public but lead to economic and job losses from the local communities. At a time when we are struggling with ways to reduce our carbon production this action will have multiple impacts that will do the opposite. It could add up to 130 million tons of carbon dioxide pollution into the atmosphere and take out precious forests that are key to sequestering carbon. It would also lead to as much as \$13 billion in damage to the world's economy and environment. The climate costs of this proposal are simply too high. President Obama and climate scientists agree that if we want to halt the worst

potential damage from climate change, we must keep some of the world's known fossil fuel reserves in the ground. "I am horrified by the notion that our roadless areas in Colorado could be opened for Arch Coal. Where are our priorities when something as highly toxic to our atmosphere such as coal would be allowed to wreak havoc on some of the last pure wilderness we have left in our country. This land is home to all manner of wildlife. We

have decimated so much of the land that this county's wildlife needs to survive that many species are extinct or nearly so. To allow Arch Coal to mine in our forest is unconscionable."

"age from you makes a huge difference, please add one here. TAKE ACTION No Roadless Bulldozing Loophole for Arch Coal Dear U.S. Forest Service, I oppose the Forest Service proposal to reopen the coal mining loophole in the Colorado Roadless Rule. Re-opening the loophole will benefit one company--Arch Coal--while paving the way for mining more than 170 million tons of dirty coal. This could add 130 million tons of carbon dioxide pollution into the atmosphere and cause as much as \$13 billion in damage to the world's economy and environment. The climate costs of this proposal are simply too high. The loophole will also set the stage for bulldozing up to 65 miles of road on 30 square miles of roadless forest, degrading habitat for black bear, elk, goshawk, lynx and cutthroat trout. Valued recreation and hunting areas used by the public will be scarred for years. President Obama and climate scientists agree that if we want to halt the worst potential damage from climate change, we must keep some of the world's known fossil fuel reserves in the ground. The Forest Service should draw the line here, where mining coal will spew huge amounts of methane and destroy wild forest. Please keep the Colorado Roadless Rule as it is."

"This is an outrageous turn of events. The Roadless rule is in place to protect just such important areas, I thought this was settled policy after all the years of fighting and letter writing. On top of the Roadless Rule issue there is the issue of more coal mining. Coal has time and time again been identified as the one of the leading causes of damage to our environment. Why on earth would we allow more of the this destructive mineral to be mined off our public lands in violation of the Roadless rule ? Please do not allow coal mining in roadless areas of Colorado. "If you watch the news you can see the destruction coal has on the environment just look at China and India they can barely breathe or see their hands in front of their face. Clean energy, not dirty coal. Do you think big coal companies care how much wildlife they destroy or concern about the lung disease millions of people will get just so the coal company CEO and board of directors can make millions laughing all the way to the bank?"

Kate Lang MO 63125

"Thank you for reading my letter. This loophole allowing forest destruction and ultimately atmospheric destruction, must be closed, for the sake of the world. The USA only cares for itself, and this is a prime example of insular and corporate greed."

The people that live around the town have started to complain that five years down the road they are experiencing lung problems. Of course, WE Energies says this can't be so because they are very stringent about their burning policies. I submit that we

have had at least two meltdowns in the last five years from this "new plant". Why can't we fight the big business interests? Same thing is happening with the massive oil that is being transported through the state of Wisconsin by the railroads. We have had two major oil spills in the last six months. The railroad cars were not properly reinforced to carry such loads, and most peoples aren't even aware that this is happening. People in the areas are worried sick over what the contamination is doing to their children."

Corporations will promise anything including reforestation to be able to mine for their product. But I have yet to see any corporation keep their word. More coal=more pollution, even as we swoon from severe weather, historic floods and wildfires, and island nations and communities don't know how they're going to hold back rising seas. SO WHY should the U.S. Forest Service forsake its solemn stewardship of our precious few wild areas and roadless forests, to crank up global warming? NO, don't do it. "Please stop Arch Coal from ruining our environment!!! Save our Earth!!!"

Kleomichele Leeds CA 93105-2662

"Allowing this company to bulldoze and destroy the land and environment in Colorado would be nothing less than a horrific crime against nature and the citizenry. Please do the right thing and forbid this act of rape against the land. Thank you."

Chey! Leeds

MO 65441-0030

"We need the trees this mining would destroy & not the carbon pollution it would add to the atmosphere. We need to take action now. What is wrong that we can't see the dangers ahead & make our survival a priority over profit."

Karyl Lee-figueroa CA 94577-4835

"Stop allowing huge oil, coal, and other dirty fossil-fuel corporations from destroying our environment and making taxpayers do their clean-up, while they make private profit off of their destruction of our environment."
Kathleen Leenders KS 67401-4731

"My son has done two seasons of conservation work with the Montana Conservation Corps where it was instilled in him and his coworkers to appreciate and be good stewards of pristine old growth forests. Certainly the Forest Service has a similar philosophy...please stop coal mining on roadless forests!"
Philip Lefcourt CA 91101-2465

"The U. S. Forest Service is supposed to save and protect land for the public, not give it away to big business!"
Yvonne Lefever PA 19076-2031

"No loophole for the Colorado Roadless Rule please! Don't allow Arch Coal to degrade this area for coal. Also, This is counter to what is being accomplished at the Paris talks on Global Warming. We should not be hypocritical. Thank you for your attention."

Neatha Lefevre WA 98661-5452

"I do not want my taxdollars used to build roads for private companies to mine coal from environmentally sensitive areas of Colorado and any other forested area within the United States."

Mark Leffler TN 38041-6013

"STOP COAL MINING EVERYWHERE .. period"

George Lefloch

"Stop coal mining and burning all together."

Dee Leggett

"We need to maintain the roadless areas we have. There is so little left."

Mary Lehman NJ 08109-2206

"Stop Arch Coal from bulldozing thousands of pristine roadless forests in Colorado in order to mine more than 170 million tons of coal. Help us become stewards of the Earth, not destroyers."

Cynthia Lehman NY 14216-1819

"Please stop. I don't even understand why I have to ask you not to mine for coal in this area. It is an unthinkable action."

A Lehmann

LA 70454-8031

"Our pristine areas are priceless. LEAVE THEM ALONE!!!!"

Sarah Lehrer-graiwer CA 90027-1219

"It is blatantly obvious we urgently need to move away from coal, not further devastate functioning ecosystems to mine more."

George Lehto

"If China was not buying our coal fields there would probably be enough coal without raping more forest

land. People here in North Carolina are unable to purchase coal as it is going mostly to China."

Dorothea Leicher PA 19103-6442

"We cannot afford to lose any forests in this age of climate change, least of all to mine coal which will drive up greenhouse gas emissions even more. The sad truth is that we need to leave it in the ground if we want our children and grandchildren (I have 6) to have a livable world."

Lori Leichter MN 56501-4832

"Some things, once done, cannot be undone. Please protect our future."

Tara Leigh

WA 98023-4568

"Arch Coal should not be allowed to reap profits while adding huge amounts of climate pollution to our atmosphere, all at the expense of wild, roadless forest! This insanity needs to stop now!"

Tracy Leinbaugh OH 45701-8849

"Coal mining is irresponsible."

Rachel Leip

MO 65109-1424

"Keep the coal in the ground and save the forest. No giveaway to Arch Coal!"

Don Leisen

MN 55369-3968

"My son lives the beautiful Blue Ridge mts. Air quality is affected by deforestation and mountain top removal.

Stop it please!"

Francis Leitao

"Stop these crimes against mother earth. You should be prosecuted for this shameful acts."

Salom Lellingner NC 28712-7824

"This is appalling!"

Peggy Lemahieu WI 53703

"Clear cutting the forest down to get at strip mining for coal is absolutely the wrong thing to do!!! We need to rethink our policies on coal and look for cleaner energy sources! I am very against this action!!!"

Richard Lemieux TX 75013-3460

"Money is a fluid. If you do not contain it, it will slip through, and ruin our planet forest lungs. Eventually we will all choke. You are subject to strong fluid pressure caused by greed. I will pray for your victory."

Joseph Lemischak NY 10603-1430

"Stop destroying the forests. Do not reopen the loophole in the Roadless Rule"

Eric Lemke

MI 49464-1125

"Enough of the loopholes! Find another place to get your coal, if you must. Pristine roadless forests need protection, not exploitation."

Roberta Lenard CA 91941

"Leave the forest alone."

Mark Lender

"We all breath the same air. Stop coal."

Doug Lenier CA 91401-4328

"STOP killing the earth, already!!!"

Pamela Lennen CA 92111-2528

"Please stop hurting the forest and our atmosphere."

Sara Lennon ME 04107-2118

"Please consider the long term implications of sending more coal byproduct into our endangered atmosphere. Let us leave an intact earth to future generations."

Sarah Lennon WA 98230-9584

"we don't need to destroy more thing that we can't possibly replace. it's time to take care of the earth as well as humanity"

Tami Lenox

VA 20152-6068

"Destroying pristine land to mine polluting fuel makes no sense, we need other alternatives!"

Andrew Lenton NY 10037-1524

"When rules are in place to protect wilderness , The Forest Service should uphold existing rules. It's that simple."

Richard Lentz CA 95628-4156

"When the world is facing a climate crisis and must reduce fossil fuel emissions, it is pure and simple greed and stupidity that results in destruction of things (trees) that will save our planet to extract stuff (coal) that kills our planet. What is proposed will further enable planetary suicide."

Andrew Lenz MA 01054-0059

"What are you plotting to do? Ship the coal to China and India?"

Karen Leo

CA 92651-1676

"Our forests are a treasure worthy of preservation. Do not destroy their natural beauty and calm, a refuge from the noise and busyness of daily life."

Sheryl Leo

IL 60050-4152

"I thought we were trying to find a solution to save our planet? Why are you so determined to destroy it?"

Please stop what you're doing and think of the future we are leaving our children."

Joe Leonard

"Now."

Jeanette Leonard

"Please do not destroy our forests to mine coal. Coal is not our future if we want to control climate change."

Fred Leonard AZ 86305-6407

"Thank you for considering my comments."

Deni Leonard CA 94121-1944

"A 25% Renewable Energy Usage Tax should be imposed on all non-renewable energy projects to secure a sustainable Mother Earth for the future Children! Deni Leonard"

Michael Leonard CA 92038-0654

"Coal should be DEAD as an energy source. Instead. Arch Coal want to kill a forest to mine more coal. Please do not allow this to happen. Thank you."

Monika Leonard IN 46743-9760

"Keep coal in the ground and do not devastate the few pristine natural areas remaining for wildlife and human enjoyment. This is detrimental to humanity while benefiting a few rich people. For shame!"

Eric Leonard MI 48224-2597

"Its time for big coal to stop raping and pillaging Mother Earth!"

Thomas Leonard NY 10467

"Leave the coal in the ground. The forests are worth far more, and can't be restored."

Esther Leonard WV 25705-1324

"Arch Coal, stay out of the forest. We like our wild lands the way they are."

Stephen Leone NY 11787-2505

"No roads in areas that are set aside as roadless. PERIOD!!"

Erin Leong

MA 01731-2658

"It is my understanding that the Forest Service was created protect and properly manage our nation's forests. It is not your job to make them available to corporations who will destroy our natural resources for personal profit. DO YOUR DUTY!"

David Leopold HI 96796-0790

"The forest service is supposed to be protecting our forests, not approving ways to allow companies a way to destroy them. The Colorado Roadless Rule should be amended to prevent destruction of forests."

Sally Leque

WI 53901-9756

"It is time to stop destroying national forest lands in quest of fossil fuels such as coal or oil. Even more importantly, I find it disgusting that a corporation like Arch Coal can invade the forest for financial profit at a time when common sense indicates we must make the switch to renewable energy. The forest service has a responsibility to take GOOD CARE of forest lands. Allowing Arch Coal to proceed is not good care."

Leslie Lerch NJ 08077

"Our forests are beyond value, and at this point in the history, of human beings on earth, they provide the very lungs of the planet. Coal is something that must be phased out because of its impact on our climate and ecosystems. To sacrifice forests for coal makes less than no sense. Please see that these forests are preserved. Thank you very much."

Myra Lerman

MA 02135-7805

"With the world climate talks in Paris, we cannot afford to add to pollution, destroy habitats including forests. One can only make changes in the present. Now is a powerful time to act environmentally responsible; change is now!"

Valerie Lerman-greene IL 60202-3426

"No loopholes! Leave the forests alone!!! Tell Arch Coal to take a hike - literally. Maybe it will help them get their corporate-profits heads out of their corporate-profits butts."

Shaina Lerner CA 94606-1545 "#N/A"

Viviane Lerner HI 96721-6187

"Are you asleep at the wheel, US Forest Service? Whether you care about land and wildlife or about climate change, the need to stop Arch Coal at this point should be quite *obvious*! Please wake up!"

Greg Leroy

CA 93110-1036

"No roadless bulldozing to mine coal in Colorado forests. No loopholes, no mining!!!"

Donna Lesinski NY 14043-3716

"What will be left of our wildlife?"

Mike Lesley

AL 35206-1724

"These precious woodlands need to be protected from destruction by greedy companies. Do the right thing and save this natural resource."

Lin Leslie

"Keep the coal in the ground."

Terri Lesnak IL 60436-1918

"Please help save our forests and the wildlife that depends on them."

Michael Lesser IL 60613

"We don't need shrinking forests. What we do need is a shift away from coal. Please draw the line and don't allow them to cross."

Philip Lesser NC 28203-5120

"I urge you to avoid giving permission for Arch Coal to create roads in roadless Colorado forests in order to mine coal."

Gerson Lesser NY 10471-1402

"There is so little pristine land remaining in our country. Please preserve it!!"

Patricia Lessie WI 53717-2164

"It's time to put an end to reckless destruction of our forests. Let's find better ways to produce energy."

Catrina Lessley CA 95726-0016

"This is unacceptable. The land belongs to the people not corporations to make money and ruin the land."

Betty Lester MD 21061-3324

"Leave our forest alone for the sake of our wildlife, our environment, and our children. coal is no reason to destroy forest land. The forest service should be protecting our forests from coal mining, methane gas, and everything detrimental to the forest and its wildlife that goes along with it."

Lori Lester

SC 29055-8809

"cOAL MINING IS OUT DATED PLEASE FIND OTHER WAYS"

Laura Lester TN 37029-6102

"Stop the destruction."

Sarah Letoile CA 94129-2815

"Since when is our Forest Service in the COAL MINING BUSINESS? Outragious, rape of pristine forests, you are out of your minds!!!"

Pamela Letourneau CA 95403-8181

"What? Please, get going on alternative energy sourcing and put the subsidies where they belong- r&d into less harmful sources of energy. Stop using dirty, extractive energy sources."

Jeff Letterman WA 98236-8440

"I oppose the Forest Service proposal to reopen the coal mining loophole in the Colorado Roadless Rule. Haven't we learned anything about the burning of more coal?"

Tamah Lettieri FL 33442-6050

"Renewable energy is the answer! Please halt the destruction of mother earth from fossil fuel corps"

Robert Leudesdorf FL 32940

"Please end this madness. This is our only planet and no amount of profit can replace this type of destruction."

Carol Leung

"We need a clean energy."

Sharyn Leurck IN 47040-9436

"When will our leaders look at what they do with a conscience instead of a dollar sign? This planet needs our help for us all to survive."

Heide Leuthner Decker NY 11709-1904

"We must save our few remaining forest. The destruction of the planet is becoming an epidemic with consequences for reaching what the eye can see. I speak up for our generation and for future generations to save our forest."

Tim Levatich NY 14817-9728

"We simply must STOP destroying our own habitat. No more fossil fuel extraction, please. Just stop."

B Levedahl

MD 21212-2002

"This is very important to me. I have hiked in this area and plan to travel there again."

Peter Leven

Catherine Lewis

"If the forest service will not ensure the protection and preservation of our lands the American people need to remove them from all positions of power. You work for us."

Anne Lewis

"This is outrageous!"

Rebekah Lewis

"We are supposed to be moving away from coal usage in this country. Why, then, would we destroy acres of pristine forest and disturb the habitat for countless species to mine more coal? We must protect our trees which clean our air, not make way for more pollution. And we must protect those species who

make their home in the forest because they can not protect themselves from such destructive action. Please reconsider, and protect our land from further senseless destruction. Thank you."

Diane Lewis

Richard Lewis CA 90036-5720

"This hideous plan will kill people for many years to come."

Sammarye Lewis CA 95159-6331

"This loophole in the Roadless Rule is strictly for greedy coal mining industry, particularly Arch Coal. The Forest Service must represent the public and our wildlife, not big business."

Tom Lewis

FL 33467-6970

"Are you kidding me? Who got to the Forest Service? Citizens United strikes again. Please do not reopen this loophole. Protect our roadless forests!"

Ryan Lewis

MO 63139-3401

"While management of our wild areas does require revenue, partnership with fossil fuel energy companies is the antithesis of sustainable, prudent practice. We have plenty of coal resource available from other active mining locations in the USA. The only reasons I can assume this measure is being considered are either corruption or laziness toward finding other funding solutions. There is no way that new coal mines in our wild places will truly benefit America, in part or whole. Please find another answer. Sincerely, Ryan"

Leslie Lewis

NC 28303-4909

"we the people have a right to keep our forests & wild lands pristine to preserve sanctity of natural resources, to preserve our clean air & water for now & generations & to preserve the species of animals, plants & their habitats - the right of preservation of this roadless forest & our natural resources for citizenry is paramount - collectively we matter most, not one corporation's bottom line at cost of destruction of our pristine natural resources, they are priceless!"

Wayne Lewis NJ 08205-4483

"Fight climate change and protect our forests."

Sherry Lewis NM 87594-1331

"Why? We need to keep the coal in the ground. Why destroy 19,000 acres of forest. What about the animals that live there? I'm tired of oil, gas, and coal being allowed to steal land!"

Stuart Lewis OH 45459-5114

"We need trees. We don't need more coal. We need clean air to breathe."

Margaret Lewis PA 19444-1722

"As a voter, a mother, and a full-time working and taxpaying citizen, I strongly call on our public's Forest Service to reject the coal mining loophole. All I can say is how on EARTH can we consider the destruction

and pollution that would come from opening the loophole in light of our current climate situation (as a nation & as citizens of the world)."
