First name: Chris

Last name: Crosby

Organization:

Title:

Official Representative/Member Indicator:

Address1: 251 South Grape St.

Address2:

City: Denver

State: CO

Province/Region:

Zip/Postal Code: 80246

Country: United States

Email: chris-crosby2@icloud.com

Phone: 303-322-5353

Comments:

To Whom it may concern:

For some electronic reason my computer refuses to "submit" the enclosed comment. I will not take it to the closest Post office and mail it to the FS office at 740 Simms. I have just called your Simms office phone 303-275-5350

Chris Crosby

Eight reasons to not develop Arch coal mine in Sunset Roadless Area:

1- it is counter to Pres Obama's Clean Power Plan, public health and habitability of Planet.

2- It would double Colorado's GHG emissions.

3- There is no need for this coal deposit to be extracted. Coal demand is way down, other countries have plenty of their own, 70-80% of all fossils need to be left in the ground to lessen Climate Chaos.

4- There are much better jobs in this area than coal mines which cause Black Lung deaths. Dean Richard Webbkind of Univ. of Colo Leeds School of Business said at Gd Jct Chamber of Commerce that coal is on "Death's Door" while real estate and construction are "strong". And most likely Arch will just bring in out of state experienced coal workers from the glut of unemployed coal workers load off elsewhere.

5- The loophole exemption was denied by Federal Judge R. Brooke Jackson and FS and/or BLM
