

January 11, 2016

769 Gonzalez Dr.  
San Francisco, CA 94132

I am writing you in regards to the proposal to allow temporary road construction for coal-related surface activities in the North Fork Coal Mining area of Colorado.

I urge you to adopt Alternative A.

- Coal and methane gas emissions will add to green house gases which will impact all of us.

- Shipping the coal is another environmental concern.

- Temporary roads are steel roads in this roadless designated area.

This country must do all it can to reduce greenhouse gases. Attention needs to be given towards creating job opportunities that do not rely on the extraction of greenhouse causing fuels.

Sincerely,  
Jeanie Scott
