Comments:

I am writing you in regards to the proposal to allow temporary road construction for coal-related surface activities in the North Fork Coal Mining Area of Colorado.

I urge you to adopt Alternative A

-Coal and methane gas emissions will add to green house gases which will impact all of us.

-Shipping the coal in another environmental concern.

-Temporary roads are still roads in their roadless designated area.

This country must do all it can to reduce greenhouse gasses. attention needs to be given towards creating job opportunities that do not rely on the extraction of greenhouse causing fuels.

Sincerely,

Jeanie Scott
