Comments:

I am writing to express my concern for the possible reduction in recreational opportunities, especially for motorized users in the CHUGACH. I am a recreational user of both motorized and non-motorized activities. I already feel as though motorized use is too restricted and is shrouded by a bad reputation. The CHUGACH is an amazing playground for locals, non-locals and tourists alike; there needs to be at the very least maintained opening of the current motorized areas, but I also feel strongly there should be expansion of access points for people to access the backcountry in a safe and respectable manner!
