Comments:

As a lifelong Alaskan I've lived next to the Chugach National Forrest for 52 years and have enjoyed its many benefits for both recreational opportunities and connecting with nature. I primarily access the backcountry via motorized snowmachine use in the winter, I operate a current model EPA certified machine that exceeds even the EPA's sound and pollution requirements (2016 ski-doo etec).

I would like to see more area's open to motorized access as there is plenty to share, the current motorized area's already share with skiers - so while skiers enjoy 100% access, motorized users are only allowed a small portion of the area for use. A more equitable distribution of access would be appreciated.
