Comments:

Dear Sirs and Madams,

As a great lover of wilderness, especially the large protected areas of the west, I consider it of utmost importance that these lands, which represent the great treasures of the commons in our country, are protected from exploitation (the kind of exploitation that has degraded the vast majority of our natural environment in America).

As such, I urge you to honor your commitment to protect the wild character of the entire Wilderness study area as we work towards designating the whole 1.9 million acres of the WSA as Wilderness.

Splitting the wilderness up would greatly diminish its capacity to be a flourishing eco system with diverse and healthy populations of species.

Do not open to motor vehicles and logging.

Sincerely,

Eli Schwartz
