Comments:

It's a HORRENDOUS idea to open up the whole Chugach Forest to anything than what it already is: a beautiful, natural landscape where nature co-exists in harmony without interference from outside forces and problems such as snowmobiles, people over-using and upsetting the balance of nature and native animals: it's too important of an area to be lost to human stupidity and frivolity: PLEASE don't open up this amazing area which would definitely be regretted once it's too late.
