Comments:

Hello,

As myself and more of the public learn the methods used by private entities to gain use of public lands to profit few I find the proposed changes to Nellie Juan-College Fiord WSA concerning. This land seems to be an easy target without a permanent Wilderness designation. There is much talk about land use, I hope the Forrest Service will be able to stay strong for the benefit of the WSA until a consensus of "use" is met. The current plan reads like a free-for-all.
