Comments:

My husband and I love to get out in the fresh air and exercise without noise or smells from snow machines. The new groomed trail in Turnagain Pass at Center Ridge is a gift! In fact, we are hosting family from out of state with 3 children ages 9-14, and are heading to ski there tomorrow. This is because of connections with the Girdwood Nordic volunteers who have been hard at work to make this happen--along with other important organizations. Help keep these trails open and available to the public. We strongly support non-motorized activities in our beautiful outdoors!
