Comments:

I oppose the logging of old growth trees of any size in ANY forest. I oppose the building of miles of roads that will put sediment in our streams. This short-sighted idea for somebody to make money off of irreplaceable trees is irresponsible management of public lands. Please do NOT approve any policy that will allow harvesting of those trees. Let's be stewards of United States land.

Please place my comments into any official public records. Please let my voice be heard.
