Comments:

To be truly resilient, the Blue Mountains must:

1. Have fewer roads
2. Have more big trees
3. Have more stream protection from logging and grazing
4. Have more snags and down wood for biodiversity (birds, ants, wasps, termites, microbes, . . .)
5. Have more fires
6. Have more enforcement to keep ATVs and other vehicles out of meadows and wetlands
7. Have more wilderness
