Comments:

All road closure maps and proposed road closure maps need to be released to the public. The public should not be required to keep track of closed land in the first place because this land belongs to us and we should not be limited on what or when we can use it. This is public land and it is unconstitutional for this information to be withheld from all members of our community. There is no reason that any member of the federal or state government should be hiding information of this sort from the public. This is OUR land and no one should be limiting our access to this land.
