Comments:

I strongly object to any trail closures but instead would like to see trails 738,610 and 644 re-opened and partial trails 627 and 207 extended to connecting trails. I would be open to the idea of a shorter riding season ending 9-1 of all single track trails to allow relief for the game and hunters. We are blessed with a beautiful area that should be allowed to be used by responsible users. In my opinion people that enjoy hiking and horseback riding have vast options to go off trail to avoid motorized travelers. How about a by fee educational course required by all users to help avoid confrontation on trails instead of closing trails. These fees could help with trail maintenance and search and rescue efforts. By having all users required to pay for the course everyone has some skin in the game. Users under the age of 16 would not be required to take the course but would have to be with someone who has. By charging all users and not just motorized users a greater appreciation and respect of the freedoms we enjoy in OUR national forest might be achieved
