Comments:

I am writing to urge for the protection of the Rico/West Dolores areas against motorized use. I am an avid outdoor lover and explorer and prefer to enjoy quiet, non-polluted, animal-rich trails. I am also a river rafter and want to continue to use and protect the pristine waters of the Dolores River. I feel there are plenty of areas in the San Juan National Forest that cater to lovers of motorized sports and so a mandatory quiet use area would be greatly appreciated, coveted, and protected by people like me.
