Comments:

Hello,

I am writing this letter in strong support of Alternative E for a non-motorized, quiet user experience on the East Fork of the Dolores River trail.

I am not a user of many of the other trails in the Dolores watershed, but I do hike, backpack and fly fish up in the East Fork of the Dolores. This is a pristine area and needs to remain un-motorized. Allowing motorcycles in this area would effect both wildlife and people. I would, for one, never return to the area if loud motors and the smell of exhaust were allowed. Motorcycles do have alternatives of travel and I believe there is no need to make this natural area motorized for any reason. Please do not let money and lobbying influence your decision. This area is wild and is an incredible place for fly fishermen seeking to catch native cut throat trout and experience wildlife unencumbered by the sound of motors.

Thanks for considering Alternative E in your decision for how the future of the East Fork of the Dolores will be managed.
