Rico Mountain Travel Plan comments

hello , I am an avid motorcyclist , as well as hiker and mountain biker , and resident of San Miguel county . I am outraged to find that your new plan is considering further reducing the already miniscule amount of trail available for motorized use . while there are thousands of miles of trails already designated as non-motorized trail in this area , and indeed the whole state of Colorado , there remains only a tiny , tiny fraction left for a growing number of motorized users . because of this , this new plan is overtly unfair . besides , motorcyclists are the primary user group in the Rico Mountains already , and who are , and have been primarily , responsible for keeping these trails open and navigable in summer months , ie ; clearing downed trees and digging thru snowbanks to keep ALL users on the trail. PLEASE DO NOT REDUCE THE SMALL NUMBER OF TRAILS AVAILABLE FOR MOTORIZED USE EVEN FURTHER . if you do , you're leaving a large group of Colorado Forest users with no legal places to go . thanks for your consideration .
