Comments:

I support alternative E and seasonal trail closures that restrict motorized use from July 1-September 8 and from Dec. 1-May 1. Not only does motorized travel cause a lot of damage to the trails and surrounding area, but motorized travel creates a lot of noise that not only bothers non-motorized travelers, but wildlife as well. Many of us go to the mountains for peace, quiet and time to enjoy nature. There are plenty of other areas open to motorized travel so let's limit motorized travel in this area.

Thank you,

John Stephenson
