Comments:

I have been riding in this area for decades and am a hunter, rancher, fisherman, conservationist and dirt biker. It troubles me that many special interest groups (some of which I happen to share common values) are attempting to restrict access for motorized travel for their own benefit. These special interest groups want to exclude as many people as possible, rather than allow public lands to be managed as they have historically. I have read the San Juan trail riders proposed modified option C, which gives priority to maintaining options for riders to complete loops. I hope you will seriously consider this option and not allow special interest groups to dominate your management of our public lands. Thanks.
