City: Wenatchee

State: WA

Province/Region:

Zip/Postal Code: 98801

Country: United States

Email: Nfoster@pacaero.com

Phone: 509 667-5143

Comments:

I am writing to express my whole-hearted support for opening as many forest roads as possible. As an ATV enthusiast, me and my family regularly recreate by exploring many areas open to us for our WATVs. It has proved to be a very important outlet for my children to see and experience the beautiful land we have in our state, without which such adventures may not actually be possible.

It has been my experience that the WATV enthusiasts in general are exceptionally responsible and respectful of the land they explore and in nearly all cases go out of their way to improve the trails and roads they are on.

Expanding the existing trails and roads to WATVs is the right thing to do. I ask that this organization recognize the WATV classification used by the State of Washington and for which WATV owners pay for recreational and public road use.

Thank you for your consideration on this matter.
