Draft EA for Motorized Travel Management Comment

I am in favor of Alt. D. In addition to Alt. D I feel all roads need to be opened up to WATV's. I do not see how a 1000# atv can cause as much damage to a road as a large 4 wheel drive truck. If you are worried about off road damage then cite and heavily fine the offenders. Do not punish the person that is not causing any damage to the road system. Not everyone wants or can trailer there atv from a campsite to a atv or 4x4 trail. I feel you would cause less harm to the eco system if the roads were opened up instead of making people trying to figure out a secret cross country route to where they want to go.
