Draft EA for Motorized Travel Management Comment

Motorized Travel Management Comment:

I concur with the WTA position of using Alt C as the most viable option for the use of the resource.

Limiting motorized travel to a moderate level will help insure protection of the more natural and fragile places for the years to come. Experience has shown that once opened to more motorized travel, more will be requested and eroding away the quality of the pristine areas can happen.

Thank you.

Alvin Habbestad
