Fw: Management of Travel on trails

On Tuesday, July 12, 2016 10:54 AM, Candi Austin <candikay\_00@yahoo.com> wrote:

To the United States Forest Service,

My wife and I own a cabin that my father bought in 1947 in West Rico. We have come up every summer for the last 45 years and now that I am retired we spend most of the summer and fall. One reason we have always loved to coming Rico is being able to escape the noise, hustle and bustle of the city. It has become increasingly noticeable every summer, especially this past 4th of July,

the amount of dirt bike use going through West Rico on the way to Burnett Creek and Calico trails. We do have pets and grandchildren and their safety is another concern as many of them come through at high speeds. Last, the peaceful tranquility of the Rico mountains is being diminished by the noise that these dirt bikes create.

Our hope is that you will take these concerns into consideration in making your decision as they are only going to get worse as time goes by if something is not done!

Sincerely,  
Mike Austin
