Comments:

Why does the project map for this landscape level analysis not show all the watersheds made off-limits to logging under the soon-to-be-effective Tongass Plan Amendment?

What effect will other proposals, like granting the State of Alaska extensive amounts of National Forest lands for a state forest, or the Alaska Mental Health Trust land exchange, or the proposed Sealaska land exchange, or more timber sales on existing POW state forest parcels have on existing subsistence, recreational and commercial uses of forest resources on Prince of Wales Island?

How can the Forest Service possibly rely on a single project decision to approve a bunch of management activities that will take place over the next 10 to 15 years?

Thank you.
