Comments:

I am writing to encourage the Forest Service to manage POW with fish and wildlife habitat as the top priority. Old-growth logging and road building are not appropriate for POW since they have huge negative impacts on fish, wildlife, and local users.

Please prioritize restoring impacted streams and forest lands, improving existing roads and culverts so they do not block fish passage or erode sediment into nearby streams, and supporting recreation.

Thank you for the opportunity to weigh in.

Sincerely,

Jenny Weis
