Big Ivy - no timbering of old growth

Hello,

I represent thousands of people who are concerned about the few remaining old-growth forests in our nation. We urge you to protect the old growth in Big Ivy. It is a national treasure. There should be no timbering whatsoever in the Coxcomb area, and the other areas that contain ancient forests.

Please read the book mentioned below for more insights into the science behind preserving old-growth forests.

Thank you,

Dr. Joan Maloof
