I would like to say that I have been visiting pishgah national forest for over 10 years I spend around 5 months every year in the forest of n.c. I love it and want to do something about a problem the government has with the forest. In the last four years I have been contacting many people including city state and gov. officials about the trash issues especially near mills river route 5000. I plan on starting my own foundation probably called environmental cleanup in pishgah n.f. this fall I plan on moving permanently to n.c. and do what needs to be done. I have had it with the people that think its ok to dump there trash or leave there camping supplies in the forest. I don't get any where with the u.s.d.a.and the state of n.c. don't own the land so they wont do anything about it. so you will be hearing from me this fall I have attached my video and some photos and my story thank you so much hope we can talked later mark guerriero 508-685-4952?
